Re: NMOCD Commingling Order PLC-157 1<sup>st</sup> Amendment  
Dugan Production's King Gathering System  
Com No. 91 CDP (previously Com No. 1 CDP)

Dear Mr. Ashley and Mr. Chavez,

The captioned commingling order included a stipulation that similar approvals were also obtained from the Bureau of Land Management (BLM) and the New Mexico State Land Office (NMSLO).

Copies of both approvals are attached for your information and file.

The commingling order also stipulated that we advise the Aztec office of the NMOCD upon implementation of commingling. The Com No. 91 CDP (El Paso meter No. 98-081) was placed into service on 6/13/00 and the Com No. 1 CDP (El Paso meter No. 73-044) was discontinued on 6/16/00.

Thanks for your prompt handling of our application. Should you have questions, please let me know.

Sincerely,

RECEIVED

Dear Mr. Roe:

We are in receipt of your letter of May 30, 2000. In your letter you requested our approval for surface commingling, off-lease measurement and sale of natural gas, and to add the subject four wells operated by Dugan Production Corporation to the central delivery sales meter currently authorized for the Com No. 1, Com No. 3 and King Com No. 90.

It is our understanding that you also propose to change the CDP location from the Com No. 1 well site (J-2-29N-14W) to the Com No. 91 well site (L-2-29N-14W).

Since it appears that there will be no loss of revenue to the State of New Mexico's beneficiaries as a result of your proposed operation, your request is hereby approved. Our approval is given with the understanding that the Commissioner of Public Lands reserves the right to amend or withdraw his approval, should this operation prove to be unprofitable to the state at any time in the future. Also, our approval is subject to like approval by the New Mexico Oil Conservation Division and the Bureau of Land Management.

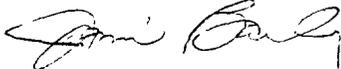

Our approval is also subject to Dugan Production Corporation acquiring the appropriate surface easements.

Your \$30.00 filing fee has been received.

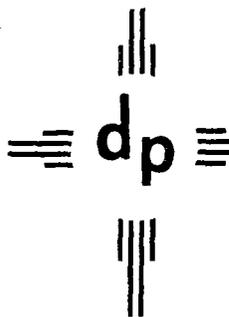

If you have any questions or if we may be of further help, please contact Pete Martinez at (505) 827-5791.

Re: Corrected System Map - Dugan's Com 1/Com 91 CDP  
Units J & L, Section 2, T-29N, R-14W  
King Gathering System  
San Juan County, NM

Dear Mr. Ashley, Mr. Martinez, Mr. Dembowski,

Attached is a revised map of Dugan Production Corp.'s King Gathering System. This map revises the map presented as Attachment No. 1 in our 5/30/00 application to add four wells to the Com No. 1 CDP and to move the CDP location from the Com No. 1 well site (J-2-29N-14W) to the Com No. 91 well site (L-2-29N-14W).

These changes in our gathering system pipelines were necessary to connect the Federal I No. 8 and King Com No. 90 wells to the gathering system and other than right-of-ways, should have no affect upon our application as initially submitted. I have highlighted the pipeline changes in blue.

Since the New Mexico State Land Office (on 6-27-00) and the NMOCD (on 6-20-00 with Commingling Order PLC-157 1<sup>st</sup> Amendment) have already approved our application as submitted, hopefully these changes will have no affect upon these approvals and this map will serve as an update of the gathering system pipeline locations. For the BLM, please consider this map as a replacement of Attachment No. 1 in our 5-30-00 application.

Please let me know if there are any questions or additional information is needed.

Sincerely,

John D. Roe  
Engineering Manager
