Mr. Daniel S. Nutter
New Mexico Oil Conservation Commission
P. O. Box 871
Santa Fe, New Mexico

Dear Mr. Nutter:

In connection with the request of Rock Island Oil and Refining Co., Inc. for an administrative approval of its unorthodox injection well No. 13, please find enclosed original and copy of Form C-116. I trust that the form will reveal the information that you need. For your additional information I have been advised that the casing program for well No. 13 will be as follows:

7" OD 23 No. surface casing set at 400 feet, cement to circulates 2 7/8" OD 6.50 No. set at TD 3340 with 2 inch cement.

If there is anything further that is needed please advise.

Yours very truly,

MCKENNA & SOMMER

Thomas F. McKenna

Mr. Daniel G. Miller
New Mexico Oil Conservation Commission
P. O. Box 871
Santa Fe, New Mexico

Dear Mr. Miller:

Pursuant to our conversation this past week in connection with the request for Rock Island Oil & Refining Co., Inc. for an administrative approval for its unorthodox injection well No. 23, please find enclosed original and copy of the application for administrative approval.

All operators offsetting the Wille "A" lease have been notified. You will find enclosed in duplicate a copy of the letter to the offsetting operators and also in duplicate photostatic copies of the Proof of Service.

Please be advised that Mr. Robison, the superintendent of the flood, is putting together the information for the C-116. As soon as I get that information I will direct it to you.

Upon sending you the C-116 we trust that the application will then be ready for administrative approval.

Yours very truly,

MCKENNA & SOMMER

Thomas F. McKenna
