P.O. Box 9338  
Fort Worth 7, Texas

Attention: Mr. E. A. Riley

Gentlemen:

Reference is made to your application dated June 25, 1964, for authority to include Well No. 37-3 in your Langlie-Mattix Penrose Sand Unit Waterflood Project.

Your letter states that the offsetting producing well, No. 37-2, is currently producing 17 barrels of oil per day and 41 barrels of water. It is assumed that this 17 barrels of oil per day production is the result of stimulation by waterflood. Please send a copy of Form C-116 showing the ability of the well to produce both before and after stimulation by the waterflood.

Very truly yours,

A handwritten signature in cursive script, reading "Daniel S. Nutter".

Daniel S. Nutter  
Chief Engineer
