APPLICATION OF TIDEWATER OIL
COMPANY TO EXPAND ITS EAST
EUMONT UNIT WATER FLOOD PROJECT
IN THE EUMONT POOL, LEA COUNTY,
NEW MEXICO.

ORDER WFX-251

ADMINISTRATIVE ORDER
OF THE OIL CONSERVATION COMMISSION

Under the provisions of Rule 701, Tidewater Oil Company has made application to the Commission on December 30, 1966, for permission to expand its East Eumont Unit Water Flood Project in the Eumont Pool, Lea County, New Mexico.

NOW, on this 14th day of January, 1967, the Secretary-Director finds:

1. That application has been filed in due form.
2. That satisfactory information has been provided that all offset operators have been duly notified of the application.
3. That no objection has been received within the waiting period as prescribed by Rule 701.
4. That the proposed injection well is eligible for conversion to water injection under the terms of Rule 701.
5. That the proposed expansion of the above-referenced water flood project will not cause waste nor impair correlative rights.
6. That the application should be approved.

IT IS THEREFORE ORDERED:

That the applicant, Tidewater Oil Company, be and the same is hereby authorized to inject water into the Yates Seven Rivers & Queen formations through the following described well for purposes of secondary recovery, to wit:

East Eumont Unit Well No. 915 located in Unit K of Section 2, Township 20 South, Range 37 East, NMPM.

PROVIDED HOWEVER, That applicant shall inject water through tubing with a packer set at approximately 3700' in said well.

DONE at Santa Fe, New Mexico, on the day and year hereinabove designated.

STATE OF NEW MEXICO
OIL CONSERVATION COMMISSION

A. L. PORTER, Jr.
Secretary-Director

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. This is essential for ensuring the integrity of the financial data and for providing a clear audit trail.

2. The second part of the document outlines the various methods used to collect and analyze data. These methods include direct observation, interviews, and the use of specialized software tools.

3. The third part of the document describes the results of the data collection and analysis. It shows that there is a significant correlation between the variables being studied, which supports the hypothesis.

4. The fourth part of the document discusses the implications of the findings. It suggests that the results could be used to inform policy decisions and to guide future research in this area.

5. The fifth part of the document provides a conclusion and a list of references. The conclusion summarizes the main findings and the references list the sources used in the study.

6. The sixth part of the document contains a list of appendices. These appendices provide additional information and data that are not included in the main text of the document.

7. The seventh part of the document is a list of figures and tables. These figures and tables provide visual representations of the data and are essential for understanding the results of the study.

8. The eighth part of the document is a list of footnotes. These footnotes provide additional information and references that are not included in the main text of the document.
