Gentlemen:

We propose to convert our Sulimar Queen Unit TRACT II-7 to an injection well. Administrative Approval to expand the injection pattern has been obtained by Order No. R-4290.

We will be injecting into the Queen Formation using fresh water supplied by the City of Carlsbad (formerly Double Eagle Corporation).

Injection rate will begin at 150 barrels per day at a maximum pressure of 1000#.

Enclosed is the information required under Rule 701-B.

If any additional information is required, please advise.

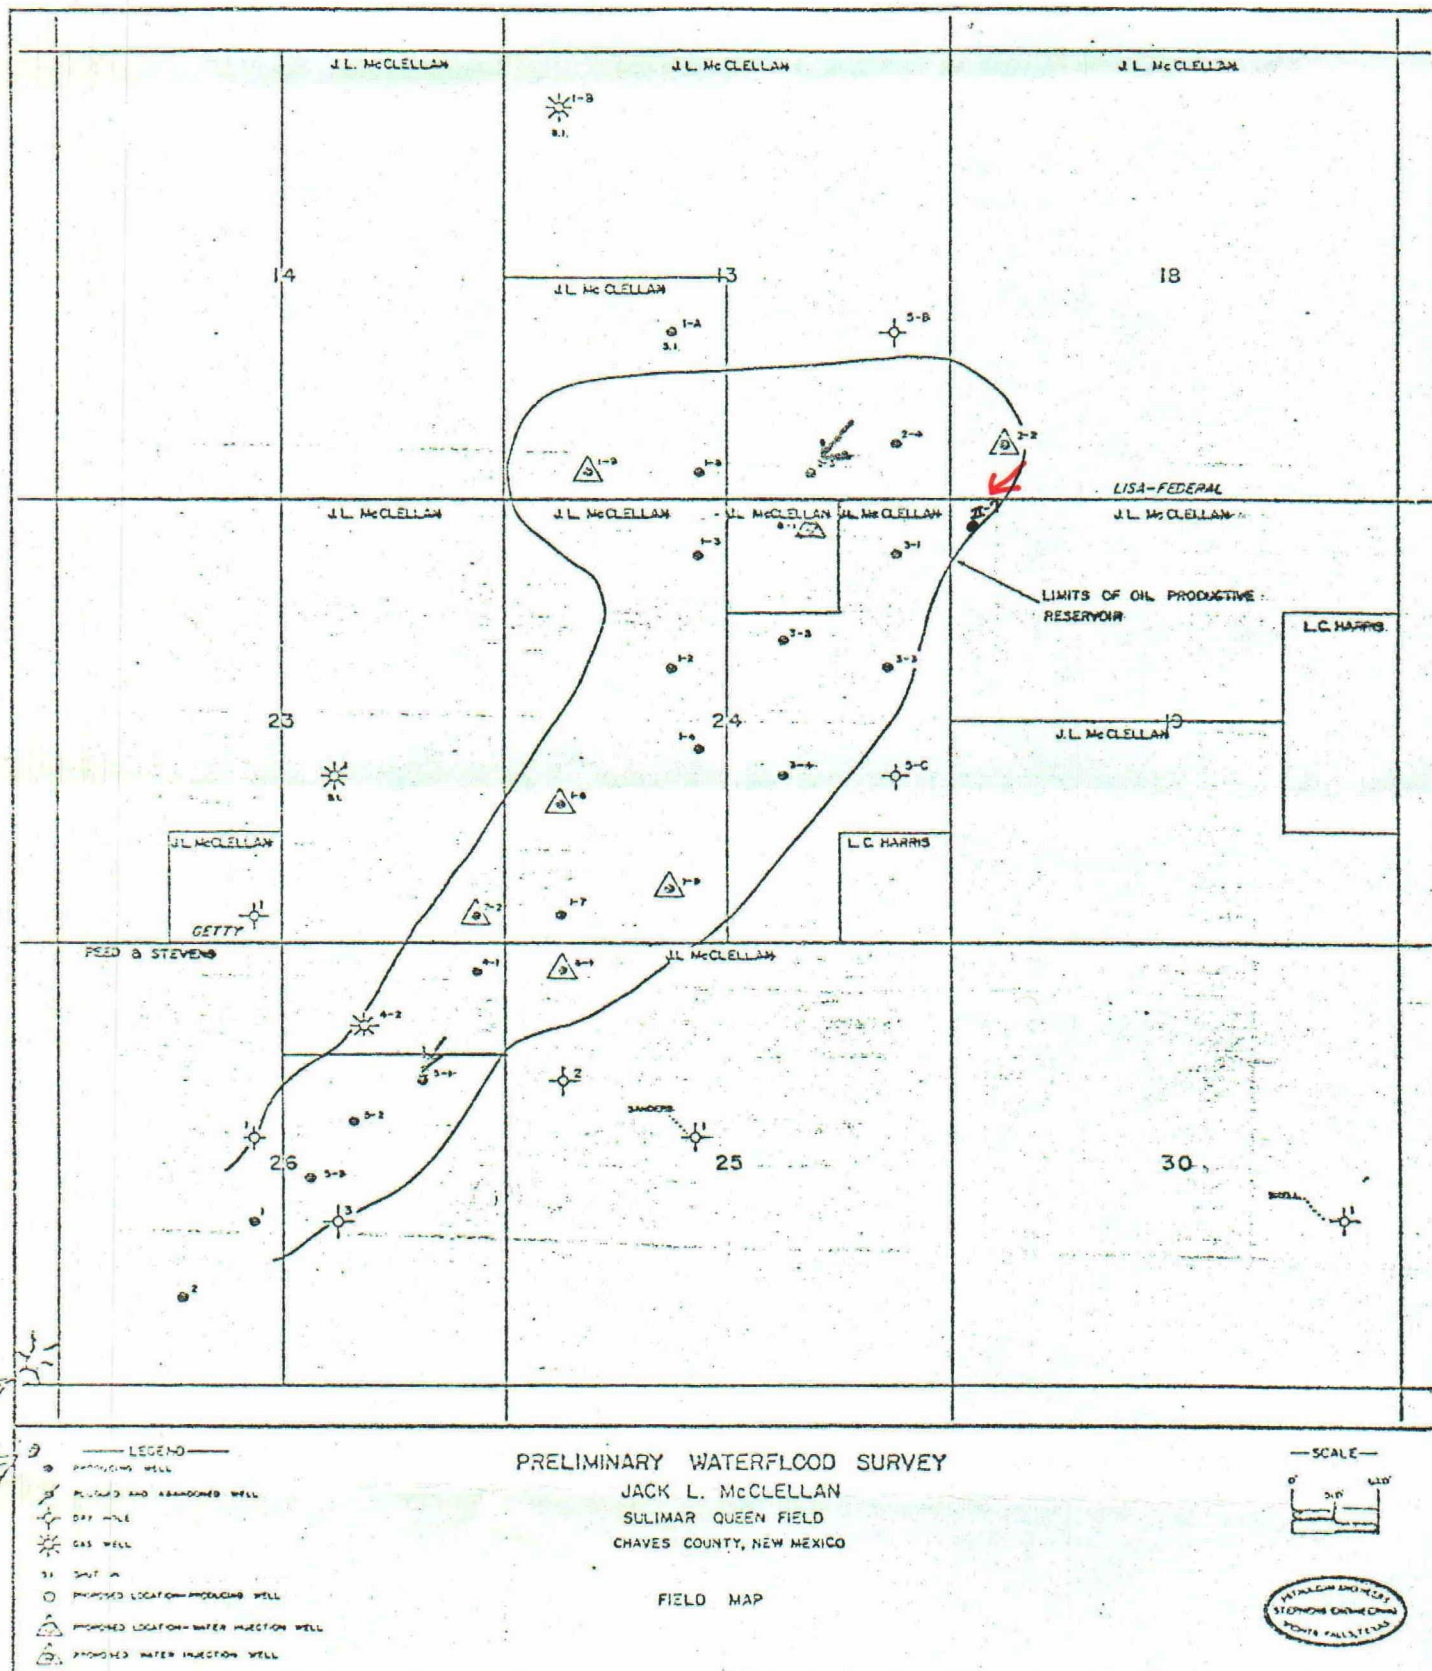

Very truly yours,

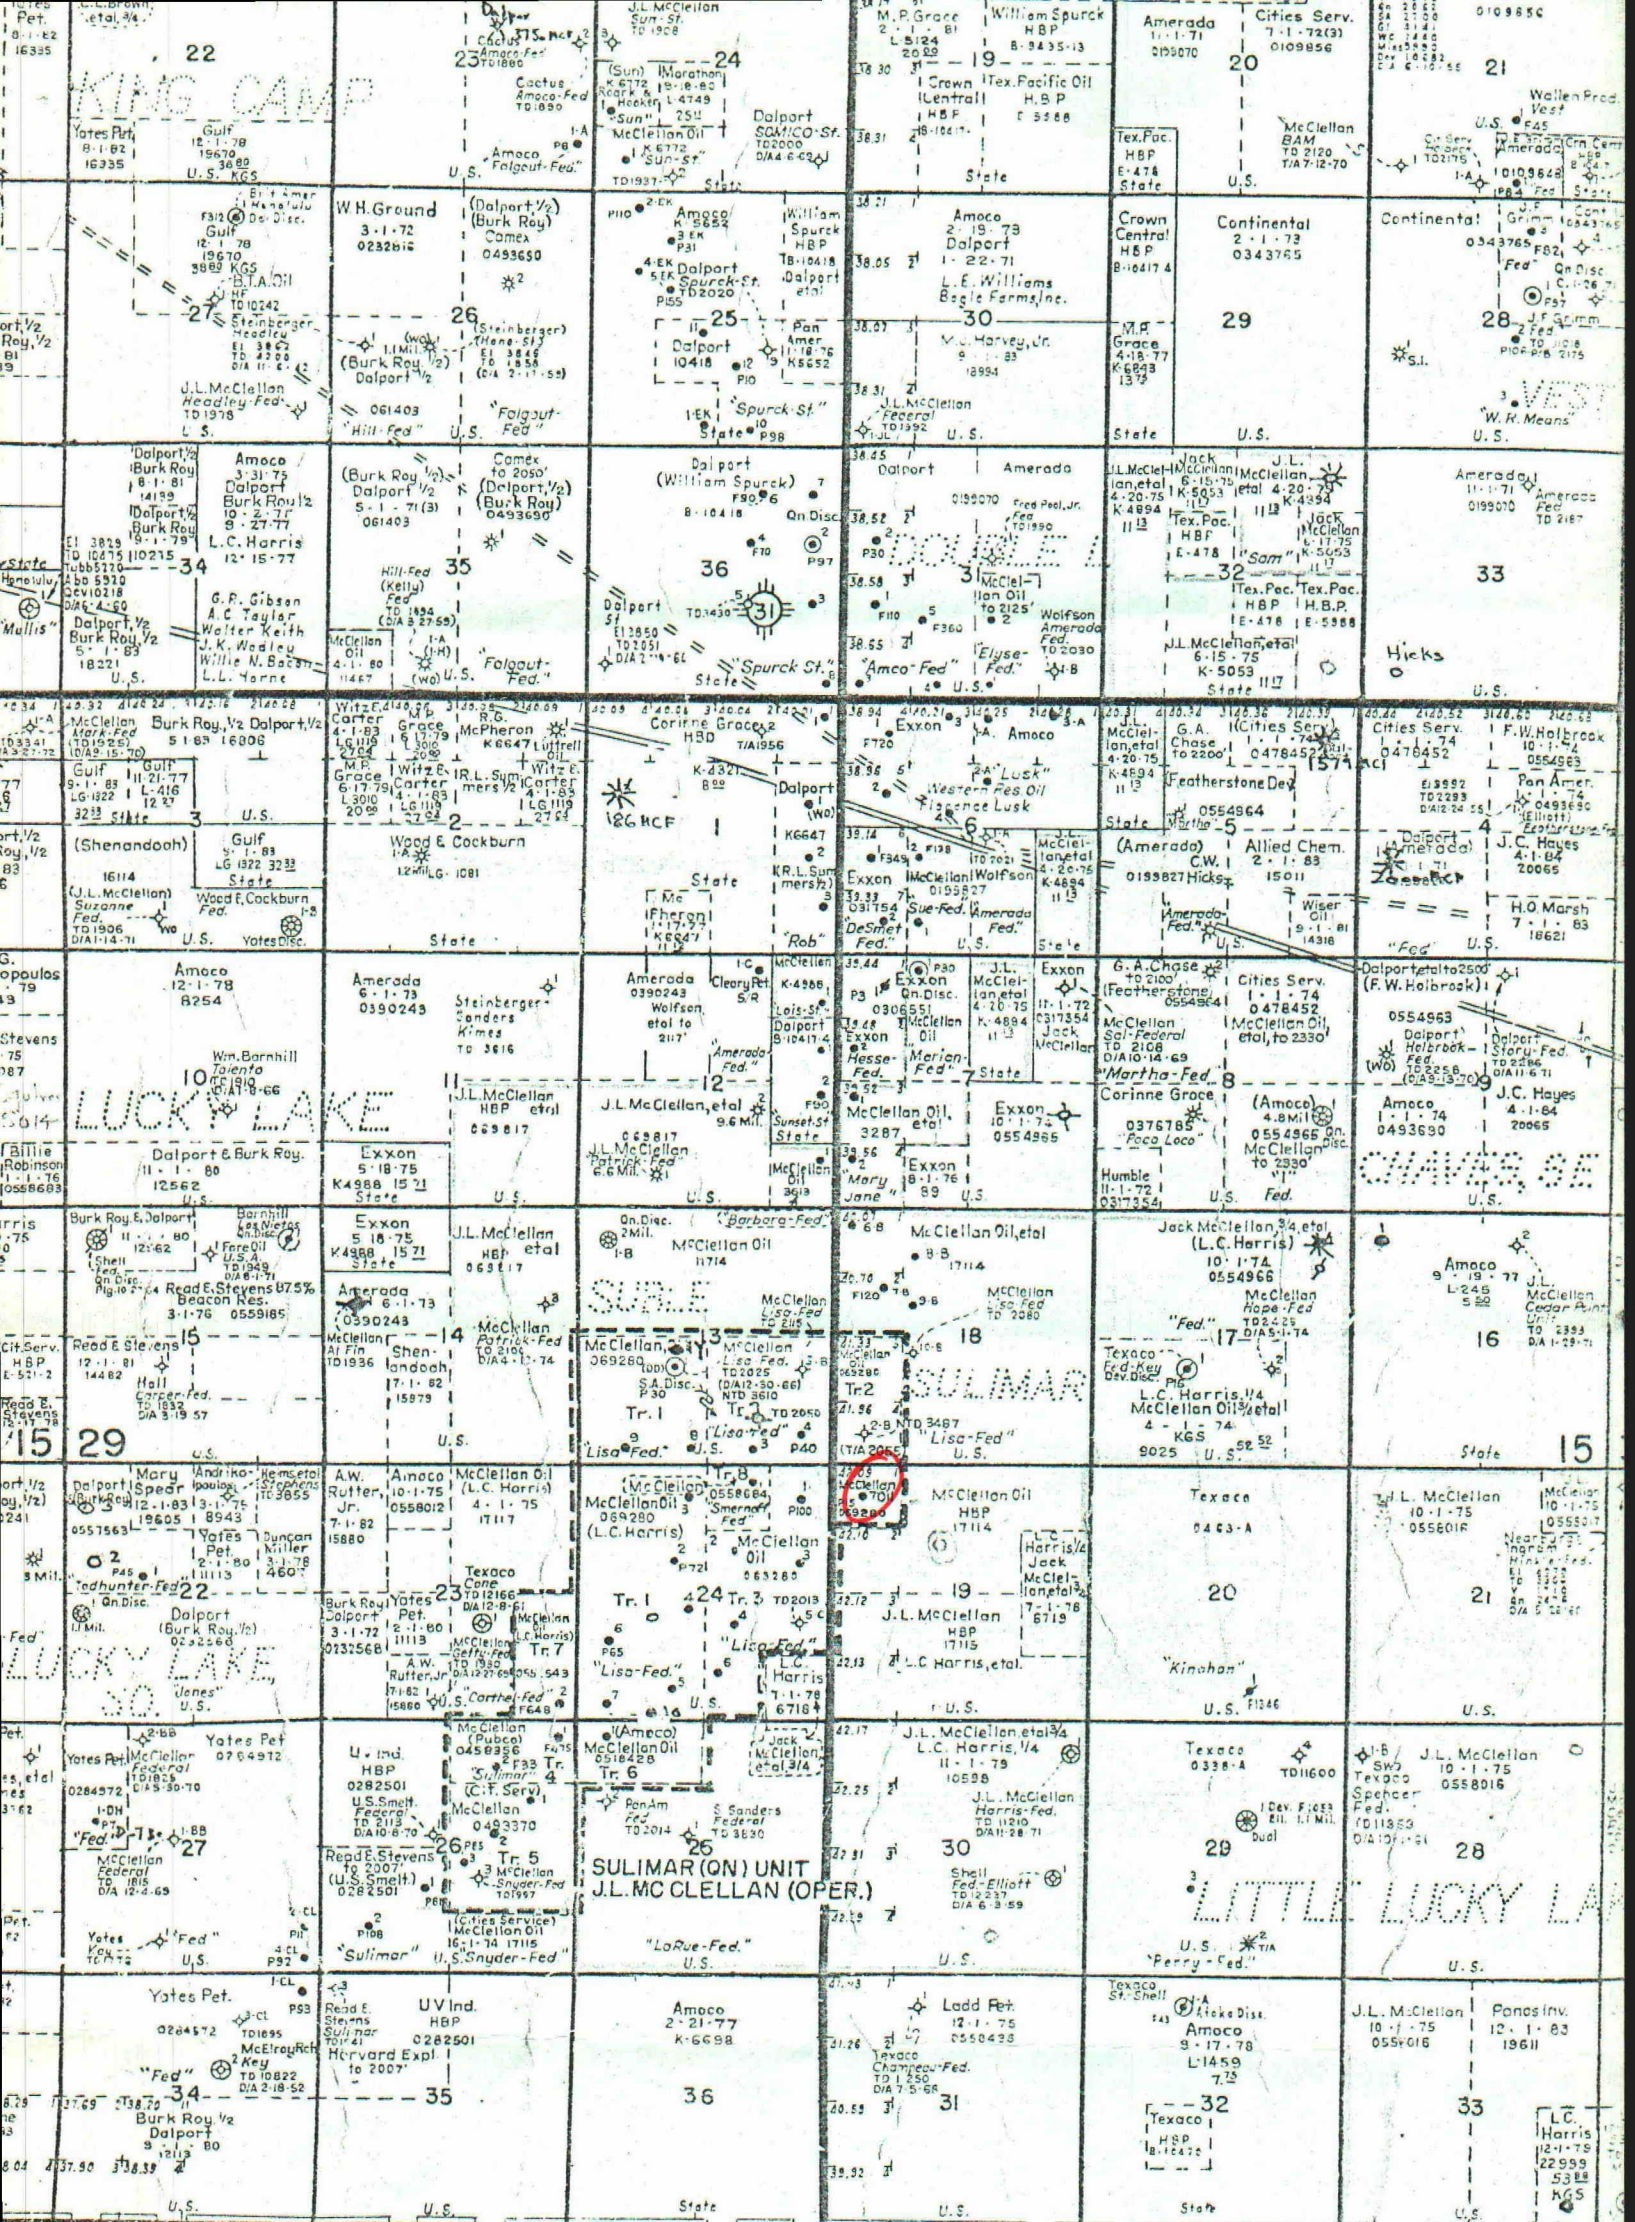

Lois Taylor

RE: Proposed MC _____

Gentlemen:

I have examined the application dated 5-19-75
for the McCullon Oil Corp. Superior Queen Unit #7- D-19-15-3 C
Operator Lease and Well No. Unit, S-T-R

and my recommendations are as follows:

that they be required to submit an up to date map.
They left off 2 producing wells - moved the above well and
over half of the injection wells are not marked as such
otherwise seems to be OK.

Yours very truly,

W. A. Gressett
