 HOBBS, NEW MEXICO 88240  
 (505) 393-6161

TO: OSCAR SIMPSON  
 FROM: Evelyn Downs - Hobbs OCD  
 DATE: March 24, 1983

We need to know if you have authorized an injection pressure increase for the Anadarko Prod. Co. Teas Yates Unit Tr. 10 #1-G in Sec 14, T20, R33, after they ran a step-rate-test in May 1982. If you have approved an increase, we need a copy for our files. (WFX-492)

*Gilbert please respond to this request*  
*OAS*

*Dec. showed injection  
 (Last year 1000 psi.)  
 (pressure limited to 640 psi)*

*3/28/83*

*Based on a search of the files there has not been a pressure increase allowed or have we a record of any step rate data. Conversations on 3/28/83 with Evelyn informed of her. She said she would bring the step rate data they had on record for me to see*  
*EPQ*
