APPLICATION OF TEXACO PRODUCING, INC. TO EXPAND ITS WATERFLOOD  
PROJECT IN THE LANGLIE-MATTIX POOL IN LEA COUNTY, NEW MEXICO

ADMINISTRATIVE ORDER  
OF THE OIL CONSERVATION DIVISION

Under the provisions of Division Order No. R-4680, Texaco Producing, Inc. has made application to the Division on May 25, 1988 for permission to expand its Myers Langlie-Mattix Unit Waterflood Project in the Langlie-Mattix Pool in Lea County, New Mexico.

NOW, on this 24th day of June, 1988, the Division Director finds that:

- (1) The application has been filed in due form.
- (2) Satisfactory information has been provided that all offset operators have been duly notified of the application.
- (3) No objection has been received within the waiting period as prescribed by Rule 701(B).
- (4) The proposed injection well is eligible for conversion to water injection under the terms of Rule 701.
- (5) The proposed expansion of the above-referenced waterflood project will not cause waste nor impair correlative rights.
- (6) The application should be approved.

IT IS THEREFORE ORDERED THAT:

The applicant, Texaco Producing, Inc., be and the same is hereby authorized to inject water into the Seven Rivers and Queen formations at approximately 3440 feet to approximately 3636 feet through 2 3/8-inch plastic lined tubing set in a packer located within 100 feet of the uppermost perforations in the following described wells for the purposes of secondary recovery to wit:

WELL AND LOCATION	MAXIMUM SURFACE INJECTION PRESSURE
Myers Langlie-Mattix Unit No. 16 1980 FNL & 660 FEL (Unit H) Section 30, T-23 South, R-37 East	705 PSIG
Myers Langlie-Mattix Unit No. 27 1980 FSL & 660 FWL (Unit L) Section 29, T-23 South, R-37 East	688 PSIG

Both in Lea County, New Mexico

IT IS FURTHER ORDERED THAT:

The operator shall take all steps necessary to ensure that the injected water enters only the proposed injection interval and is not permitted to escape to other formations or onto the surface.

Prior to commencing injection operations into the well, the casing shall be pressure tested from the surface to the packer setting depth to assure the integrity of said casing.

The casing-tubing annulus shall be loaded with an inert fluid and equipped with a pressure gauge at the surface or left open to the atmosphere to facilitate detection of leakage in the casing, tubing or packer.

The injection well or system shall be equipped with a pressure limiting device which will limit the wellhead pressure on the injection well to no more than 0.2 psi/ft. of depth to the uppermost perforation.

The Director of the Division may authorize an increase in injection pressure upon a proper showing by the operator of said well that such higher pressure will not result in migration of the injected fluid from the Seven Rivers and Queen formations. Such proper showing shall consist of a valid step-rate tests run in accordance with and acceptable to this office.

The operator shall notify the supervisor of the Hobbs district office of the Division of the date and time of the installation of disposal equipment and of the mechanical integrity test so that the same may be inspected and witnessed.

Order WFX-572  
Page 3

The operator shall immediately notify the supervisor of the Hobbs district office of the Division of the failure of the tubing, casing or packer in said well and shall take such steps as may be timely and necessary to correct such failure or leakage.

The subject wells shall be governed by all provisions of Division Order No. R-4680 and rules 702-706 of the Division Rules and Regulations not inconsistent herewith.

PROVIDED FURTHER THAT, jurisdiction of this cause is hereby retained by the Division for such further order or orders as any seem necessary or convenient for the prevention of waste and/or protection of correlative rights; upon failure of the operator to conduct operations in a manner which will ensure the protection of fresh water or in a manner inconsistent with the requirements set forth in this order, the Division may, after notice and hearing, terminate the injection authority granted herein.

The operator shall submit monthly reports of the disposal operations in accordance with Rule 706 and 1120 of the Division Rules and Regulations.

Approved at Santa Fe, New Mexico, on this 24th day of June, 1988.
