Attention: Lori Litzen

Dear Ms. Litzen:

Reference is made to your request dated December 11, 1991, for authorization to convert six wells to injection within the Northeast Drinkard Unit Waterflood Project. I have reviewed your application and have found that the newspaper advertisement contains two mistakes. The advertisement incorrectly states the injection formation as being the San Andres formation, and does not give the complete well location for the NEDU Well No. 408. We will require that you run the advertisement again to correct the errors before your application can be approved. Please send me a copy of the advertisement when it is run.

Everything else in your application looks good and I foresee no other problems in getting the wells authorized for injection. If I can be of assistance, please contact me at (505) 827-5800.

Sincerely,

A handwritten signature in cursive script that reads "David Catanach".

David Catanach
