Re: Application for Expansion of Waterflood  
Orders R-3768, WFX- 608, 621, 630 and 646  
Texaco Exploration and Production Inc.  
West Dollarhide Drinkard Unit, Dollarhide Tubb-Drinkard  
T-24/25-S, R-38-E, Lea County, New Mexico

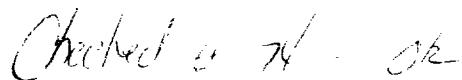

Gentlemen:

Texaco Exploration and Production Inc. respectfully requests administrative approval for the expansion of the waterflood on the West Dollarhide Drinkard Unit. In 1994, four producing wells will be converted to water injection and one injection well will be drilled as part of a 10 well drilling package. This work will help recover additional secondary reserves that would otherwise be left in place. Administrative approval is requested so that the necessary work can be commenced after the tentative February 1st spud date. If there are any questions, please contact Robert McNaughton at 505- 397-0428.

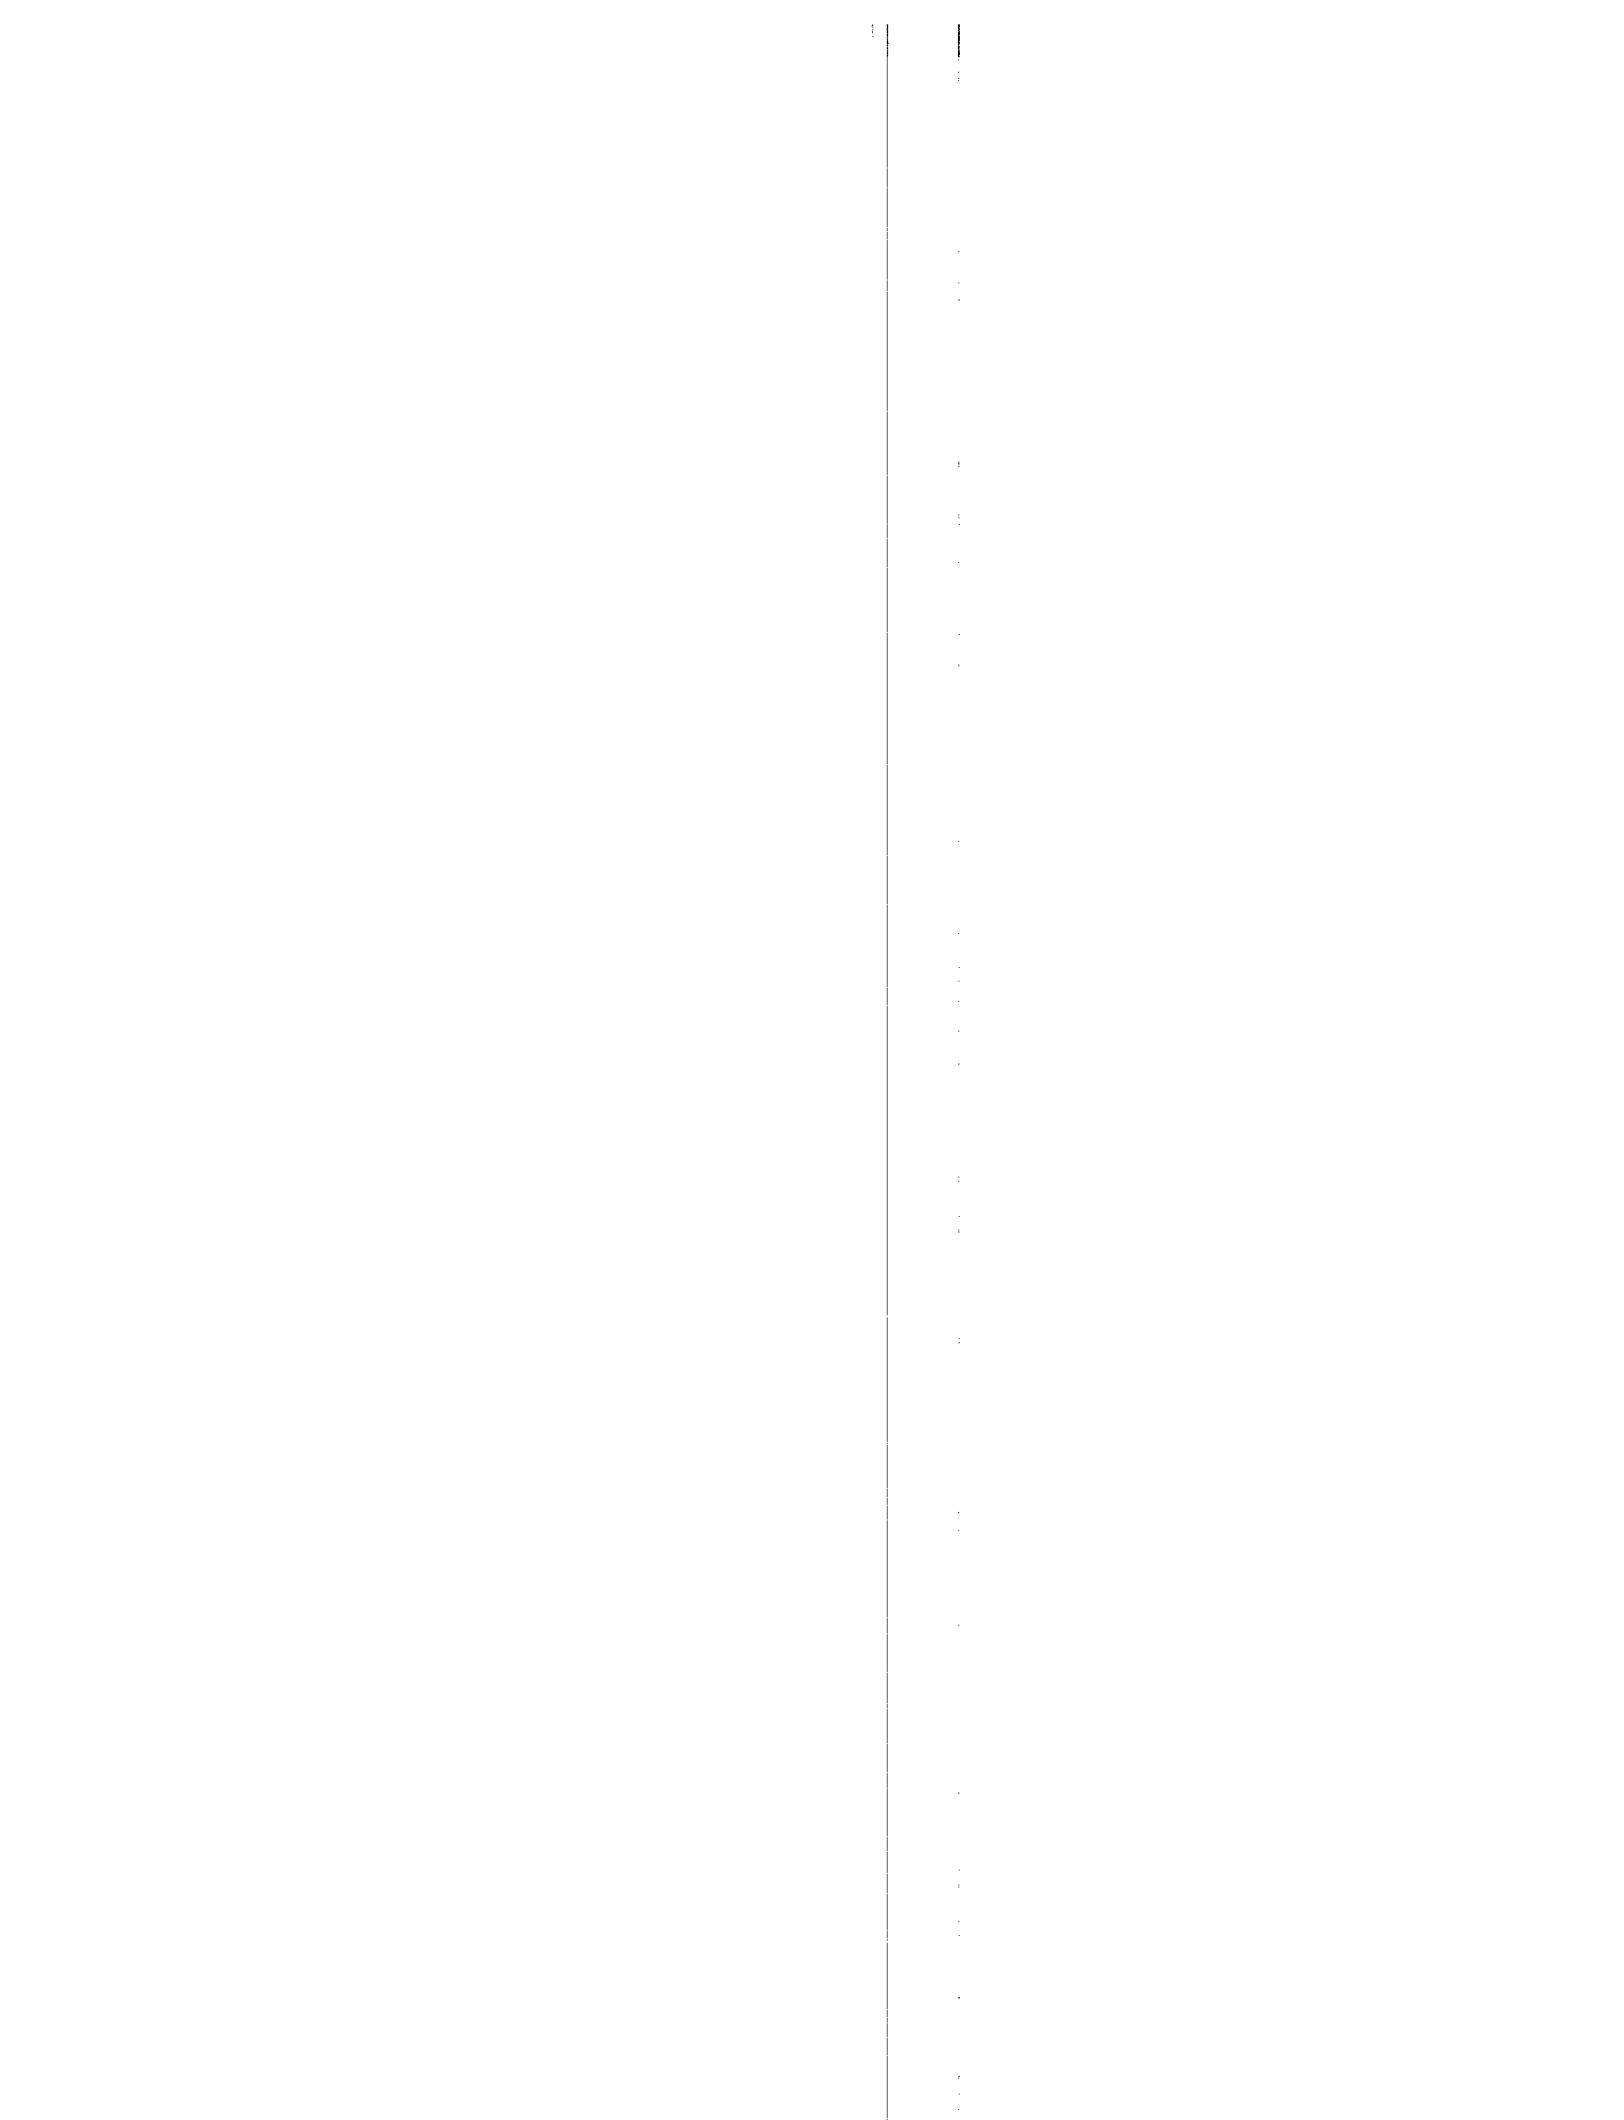

Yours very truly,

  
Terry L. Frazier  
Hobbs Area Manager

STATE OF NEW MEXICO  
ENERGY AND MINERALS DEPARTMENT

## OIL CONSERVATION DIVISION

POST OFFICE BOX 2088  
STATE LAND OFFICE BUILDING  
SANTA FE, NEW MEXICO 87501

FORM C-108  
Revised 7-1-81

## APPLICATION FOR AUTHORIZATION TO INJECT

- I. Purpose:  Secondary Recovery  Pressure Maintenance  Disposal  Storage  
 Application qualifies for administrative approval?  Yes  No
- II. Operator: Texaco Exploration & Production Inc.  
 Address: P.O. Box 730, Hobbs, New Mexico, 88240  
 Contact party: Robert McNaughton Phone: 505-397-0428
- III. Well data: Complete the data required on the reverse side of this form for each well proposed for injection. Additional sheets may be attached if necessary.
- IV. Is this an expansion of an existing project?  Yes  No R-3768,  
 If yes, give the Division order number authorizing the project WFX-608, 621, 630, 646
- V. Attach a map that identifies all wells and leases within two miles of any proposed injection well with a one-half mile radius circle drawn around each proposed injection well. This circle identifies the well's area of review.
- \* VI. Attach a tabulation of data on all wells of public record within the area of review which penetrate the proposed injection zone. Such data shall include a description of each well's type, construction, date drilled, location, depth, record of completion, and a schematic of any plugged well illustrating all plugging detail.
- VII. Attach data on the proposed operation, including:
1. Proposed average and maximum daily rate and volume of fluids to be injected;
  2. Whether the system is open or closed;
  3. Proposed average and maximum injection pressure;
  4. Sources and an appropriate analysis of injection fluid and compatibility with the receiving formation if other than reinjected produced water; and
  5. If injection is for disposal purposes into a zone not productive of oil or gas at or within one mile of the proposed well, attach a chemical analysis of the disposal zone formation water (may be measured or inferred from existing literature, studies, nearby wells, etc.).
- \*VIII. Attach appropriate geological data on the injection zone including appropriate lithologic detail, geological name, thickness, and depth. Give the geologic name, and depth to bottom of all underground sources of drinking water (aquifers containing waters with total dissolved solids concentrations of 10,000 mg/l or less) overlying the proposed injection zone as well as any such source known to be immediately underlying the injection interval.
- IX. Describe the proposed stimulation program, if any.
- \* X. Attach appropriate logging and test data on the well. (If well logs have been filed with the Division they need not be resubmitted.)
- \* XI. Attach a chemical analysis of fresh water from two or more fresh water wells (if available and producing) within one mile of any injection or disposal well showing location of wells and dates samples were taken.
- XII. Applicants for disposal wells must make an affirmative statement that they have examined available geologic and engineering data and find no evidence of open faults or any other hydrologic connection between the disposal zone and any underground source of drinking water.
- XIII. Applicants must complete the "Proof of Notice" section on the reverse side of this form.
- XIV. Certification

I hereby certify that the information submitted with this application is true and correct to the best of my knowledge and belief.

Name: Terry L. Frazier Title Area Manager

Signature: Terry Frazier Date: 1/12/94

- \* If the information required under Sections VI, VIII, X, and XI above has been previously submitted, it need not be duplicated and resubmitted. Please show the date and circumstance of the earlier submittal. Examiner Hearing May 21, 1961; WFX applications submitted

5-5-91, 12-19-91, 3-10-92, 5-24-93, 7-22-93

DISTRIBUTION: Original and one copy to Santa Fe with one copy to the appropriate Division

## III. WELL DATA

- A. The following well data must be submitted for each injection well covered by this application. The data must be both in tabular and schematic form and shall include:
- (1) Lease name; Well No.; location by Section, Township, and Range; and footage location within the section.
  - (2) Each casing string used with its size, setting depth, sacks of cement used, hole size, top of cement, and how such top was determined.
  - (3) A description of the tubing to be used including its size, lining material, and setting depth.
  - (4) The name, model, and setting depth of the packer used or a description of any other seal system or assembly used.

Division District offices have supplies of Well Data Sheets which may be used or which may be used as models for this purpose. Applicants for several identical wells may submit a "typical data sheet" rather than submitting the data for each well.

- B. The following must be submitted for each injection well covered by this application. All items must be addressed for the initial well. Responses for additional wells need be shown only when different. Information shown on schematics need not be repeated.

- (1) The name of the injection formation and, if applicable, the field or pool name.
- (2) The injection interval and whether it is perforated or open-hole.
- (3) State if the well was drilled for injection or, if not, the original purpose of the well.
- (4) Give the depths of any other perforated intervals and detail on the sacks of cement or bridge plugs used to seal off such perforations.
- (5) Give the depth to and name of the next higher and next lower oil or gas zone in the area of the well, if any.

## XIV. PROOF OF NOTICE

All applicants must furnish proof that a copy of the application has been furnished, by certified or registered mail, to the owner of the surface of the land on which the well is to be located and to each leasehold operator within one-half mile of the well location.

Where an application is subject to administrative approval, a proof of publication must be submitted. Such proof shall consist of a copy of the legal advertisement which was published in the county in which the well is located. The contents of such advertisement must include:

- (1) The name, address, phone number, and contact party for the applicant;
- (2) the intended purpose of the injection well; with the exact location of single wells or the section, township, and range location of multiple wells;
- (3) the formation name and depth with expected maximum injection rates and pressures; and
- (4) a notation that interested parties must file objections or requests for hearing with the Oil Conservation Division, P. O. Box 2088, Santa Fe, New Mexico 87501 within 15 days.

NO ACTION WILL BE TAKEN ON THE APPLICATION UNTIL PROPER PROOF OF NOTICE HAS BEEN SUBMITTED.

NOTICE: Surface owners or offset operators must file any objections or requests for hearing of administrative applications within 15 days from the date this application was mailed to them.

January 17, 1994

**NEW MEXICO OIL CONSERVATION DIVISION - Form C-108**

**Application for Water Flood Expansion**

Unit Name: West Dollarhide Drinkard Unit, Lea County, New Mexico

Conversion Well Numbers and Locations:

15 - Unit Letter A, 990 FNL & 990 FEL, Section 30, T24S, R38E

26 - Unit Letter K, 2080 FSL & 1980 FWL, Section 29, T24S, R38E

36 - Unit Letter O, 660 FSL & 1980 FEL, Section 29, T24S, R38E

72 - Unit Letter M, 330 FSL & 660 FWL, Section 33, T24S, R38E

Injection Well to be Drilled:

146 - Unit Letter C, 810 FNL & 2096 FWL, Section 32, T24S, R38E

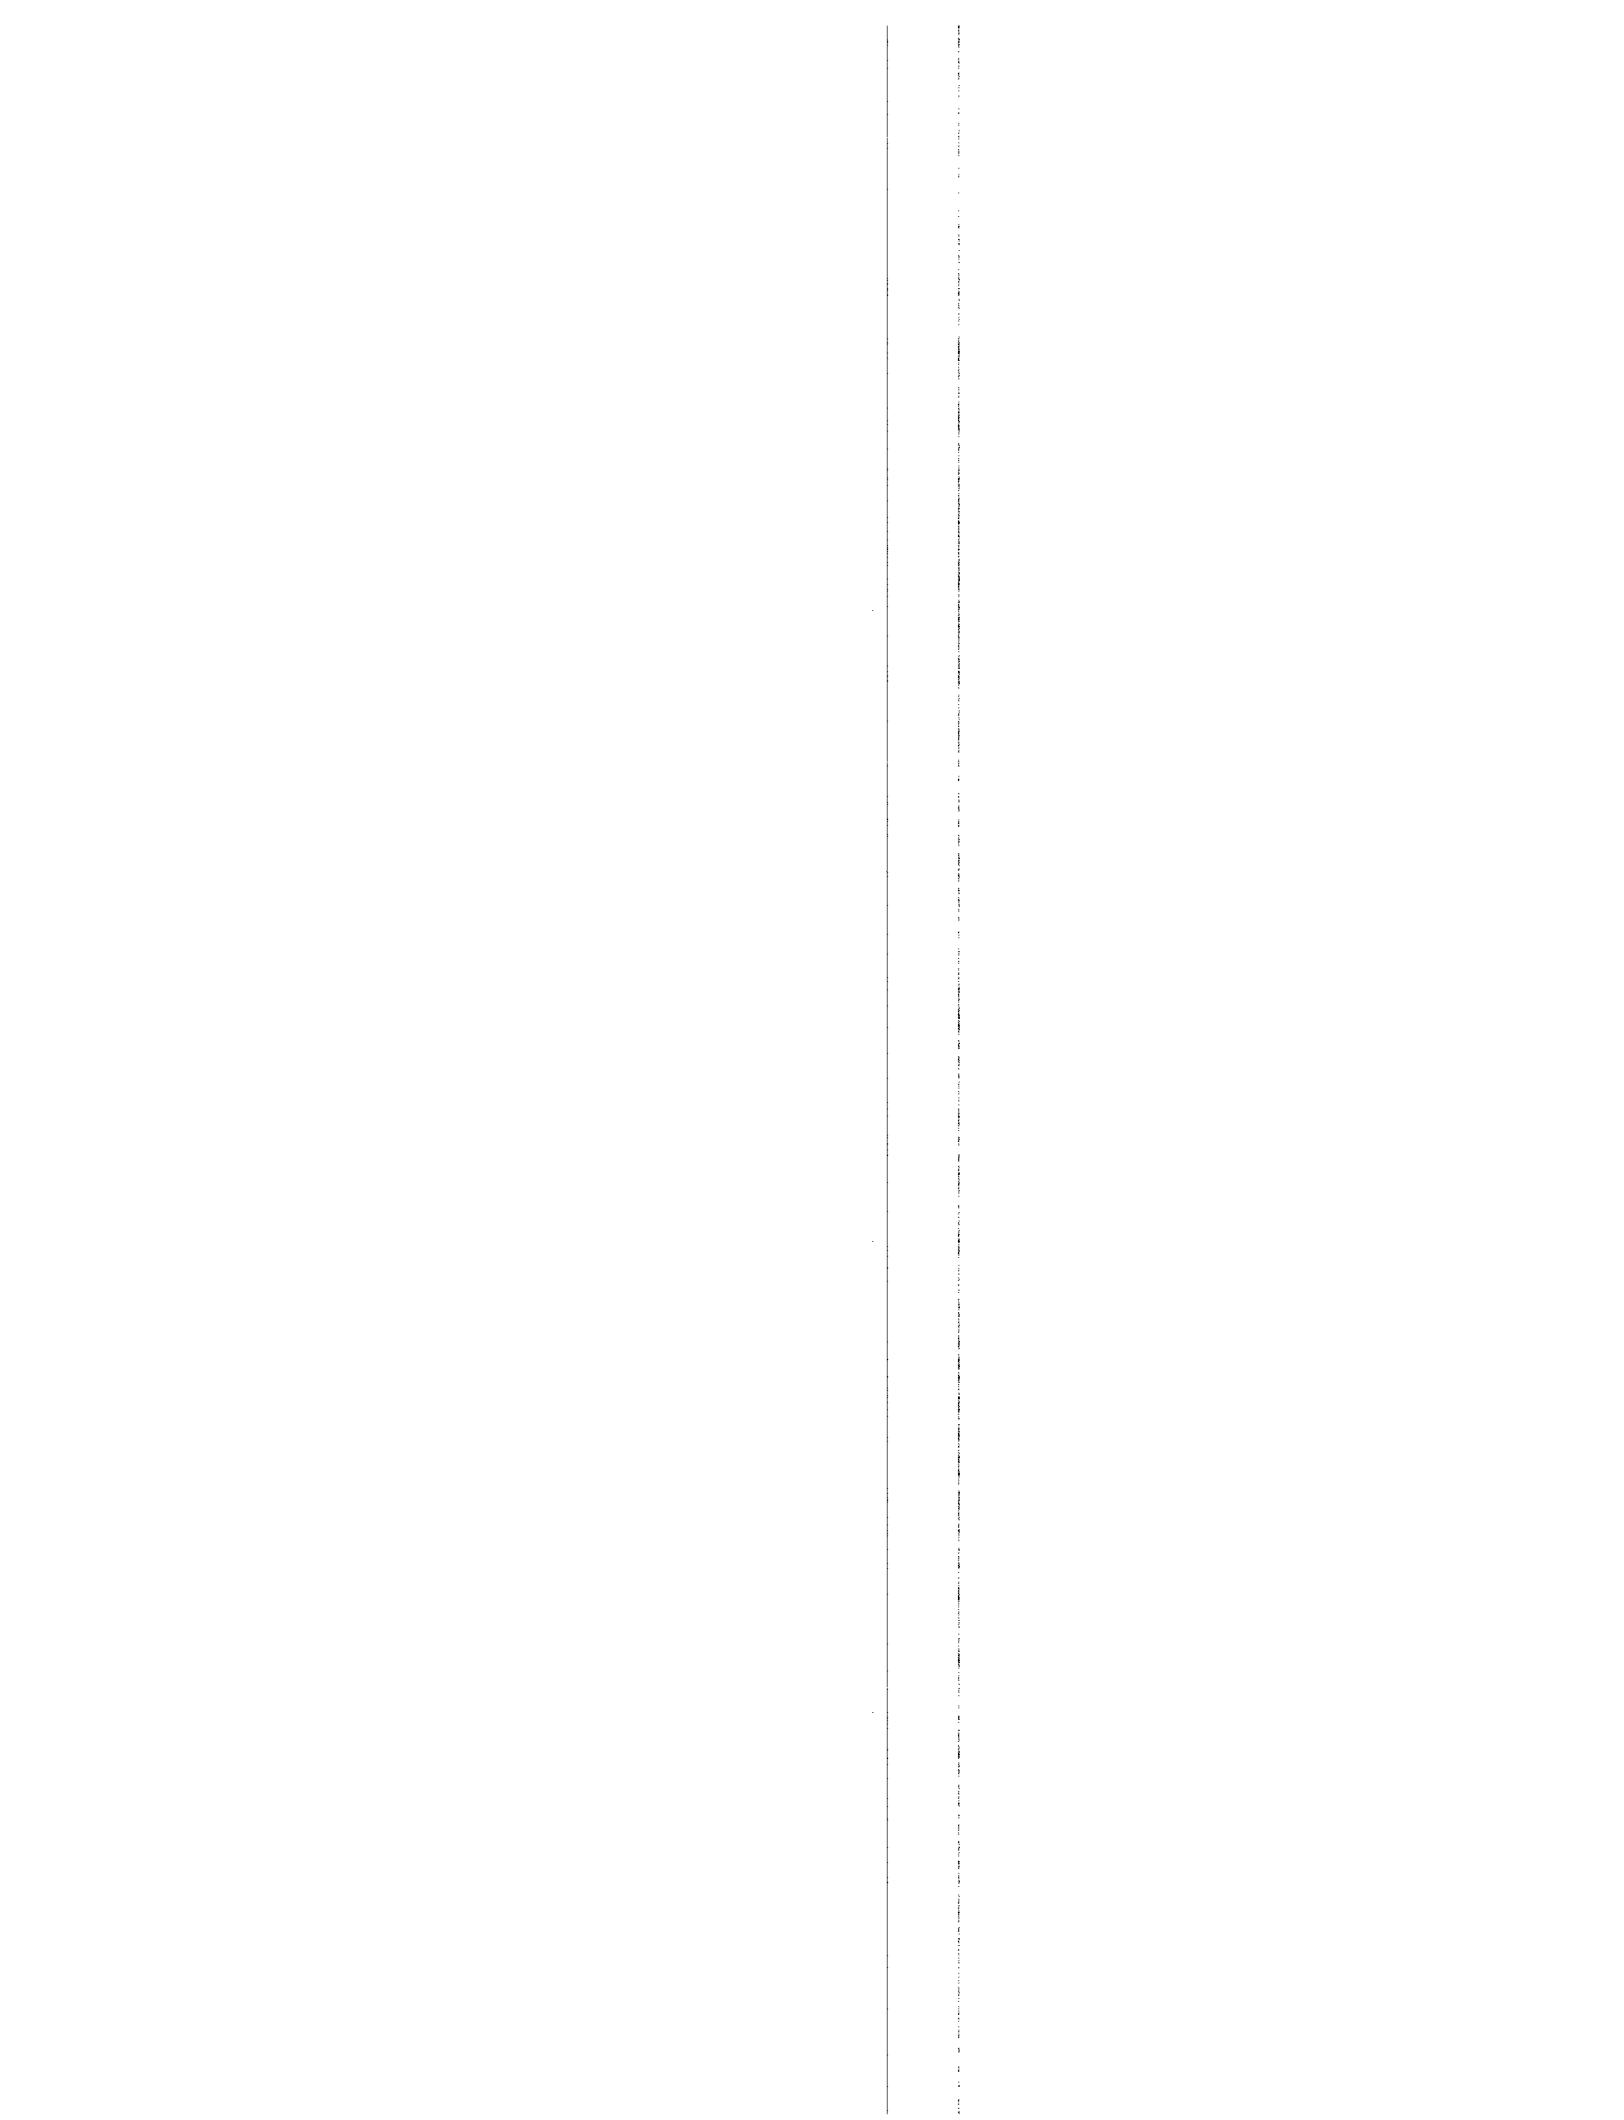

III. All pertinent well data is included on the schematic sheets.

V. A lease map of wells within a 2 mile radius is attached. A 1/2 mile radius circle is drawn around the subject wells, which constitutes the area of review. The second map shows the locations of P&A wells. The third map shows the Texas wells in the AOR.

VI. Data for sections VI, VIII, X and XI have been previously submitted under NMOCD Order R-3768 dated May 21, 1969. Additional information was supplied on May 10, 1991 and June 23, 1991 as part of the 1991 waterflood expansion application (WFX-608). Additional information was supplied for the 1992 expansion (WFX-621) on December 19, 1991, and March 10, 1992. The last application (WFX-646) was approved July 1, 1993.

VI. The attached map also shows the approximate locations of the 1994 infill wells and proposed conversions. The infill injection wells will be drilled to replace existing unit wells that were plugged. Seven producers and three injection wells are planned to be drilled in 1994. In the absence of Queen water flows, no intermediate casing will be run. Typical well construction will be similar to WDDU No. 146. Two wells have already received NMOCD approval to be drilled as injection wells. Construction and completion of these wells will be similar to the ones drilled in 1993. In 1993, 15 wells were drilled; 10 producers and 5 injection wells. Completion reports for these wells are attached.

In 1993, Mexico J No. 2, WDDU No. 32, WDDU No. 83 and WDDU No. 86 were plugged as designed with no problems being encountered. WDDU No. 146 will be drilled as a replacement for WDDU No. 44, which was plugged in May, 1988. In 1994, WDDU No. 38 and No. 40 will also be plugged. The area of review includes Skelly Oil Co's Mexico K No. 16, which was drilled and abandoned on 1/14/76. Chevron's West Dollarhide Devonian Unit No. 114, which is adjacent to WDDU No. 86, was plugged in December, 1993.

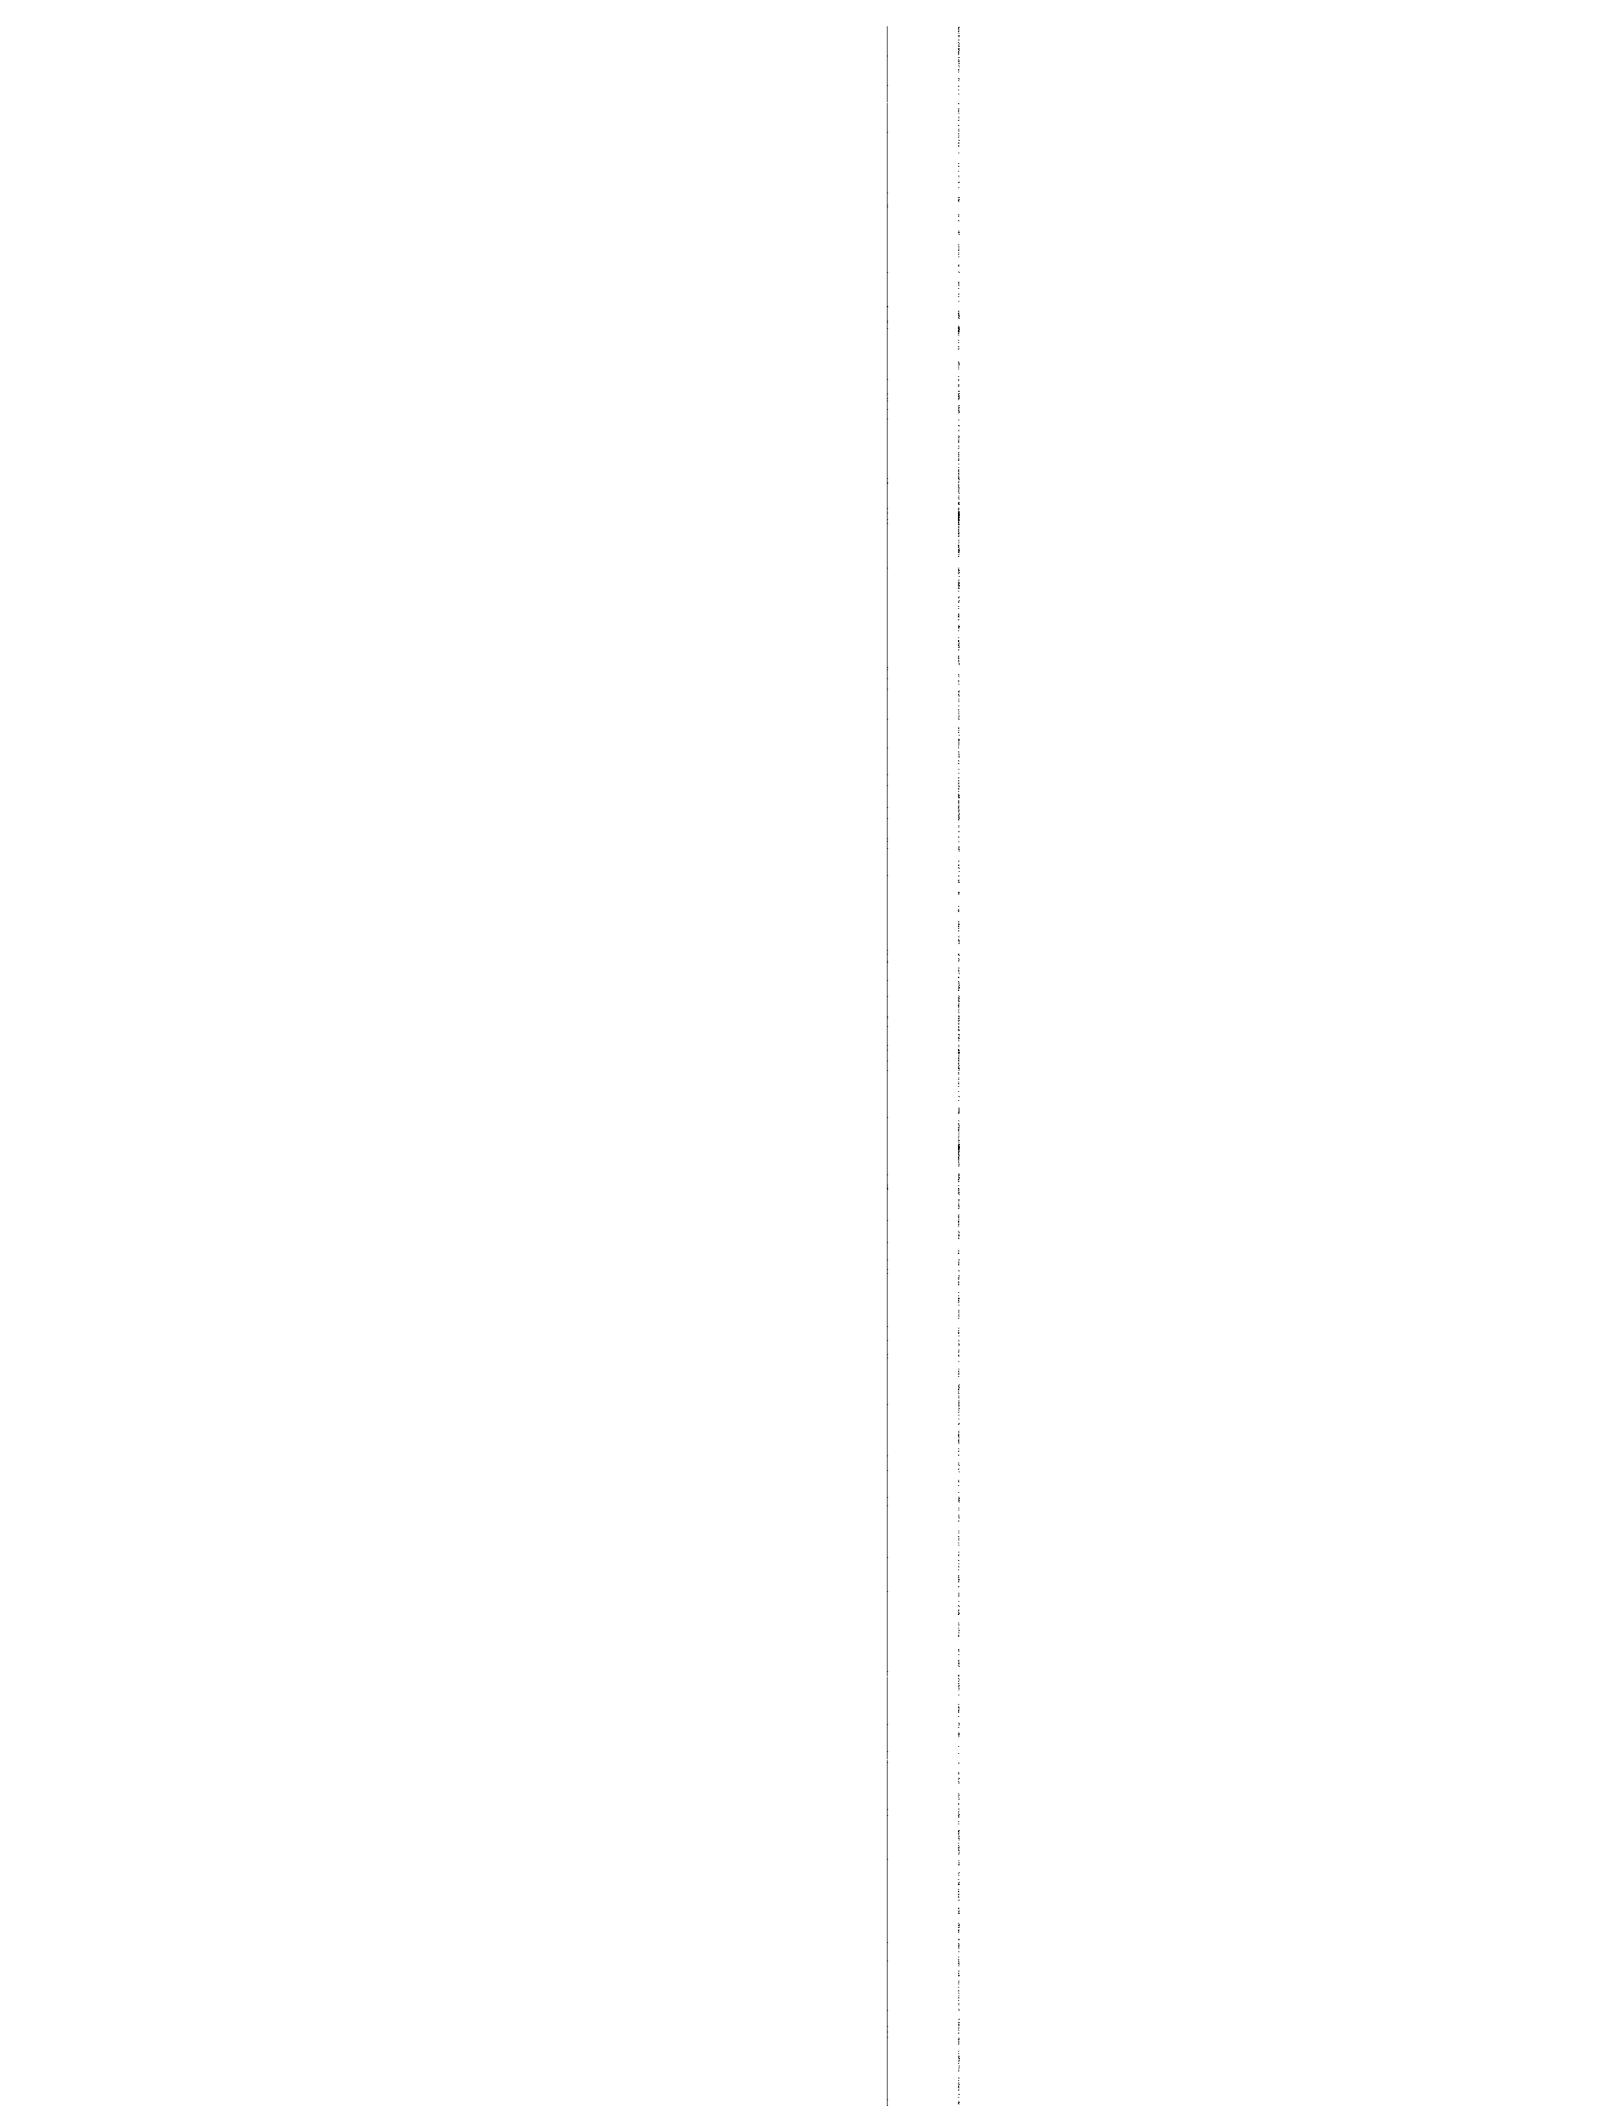

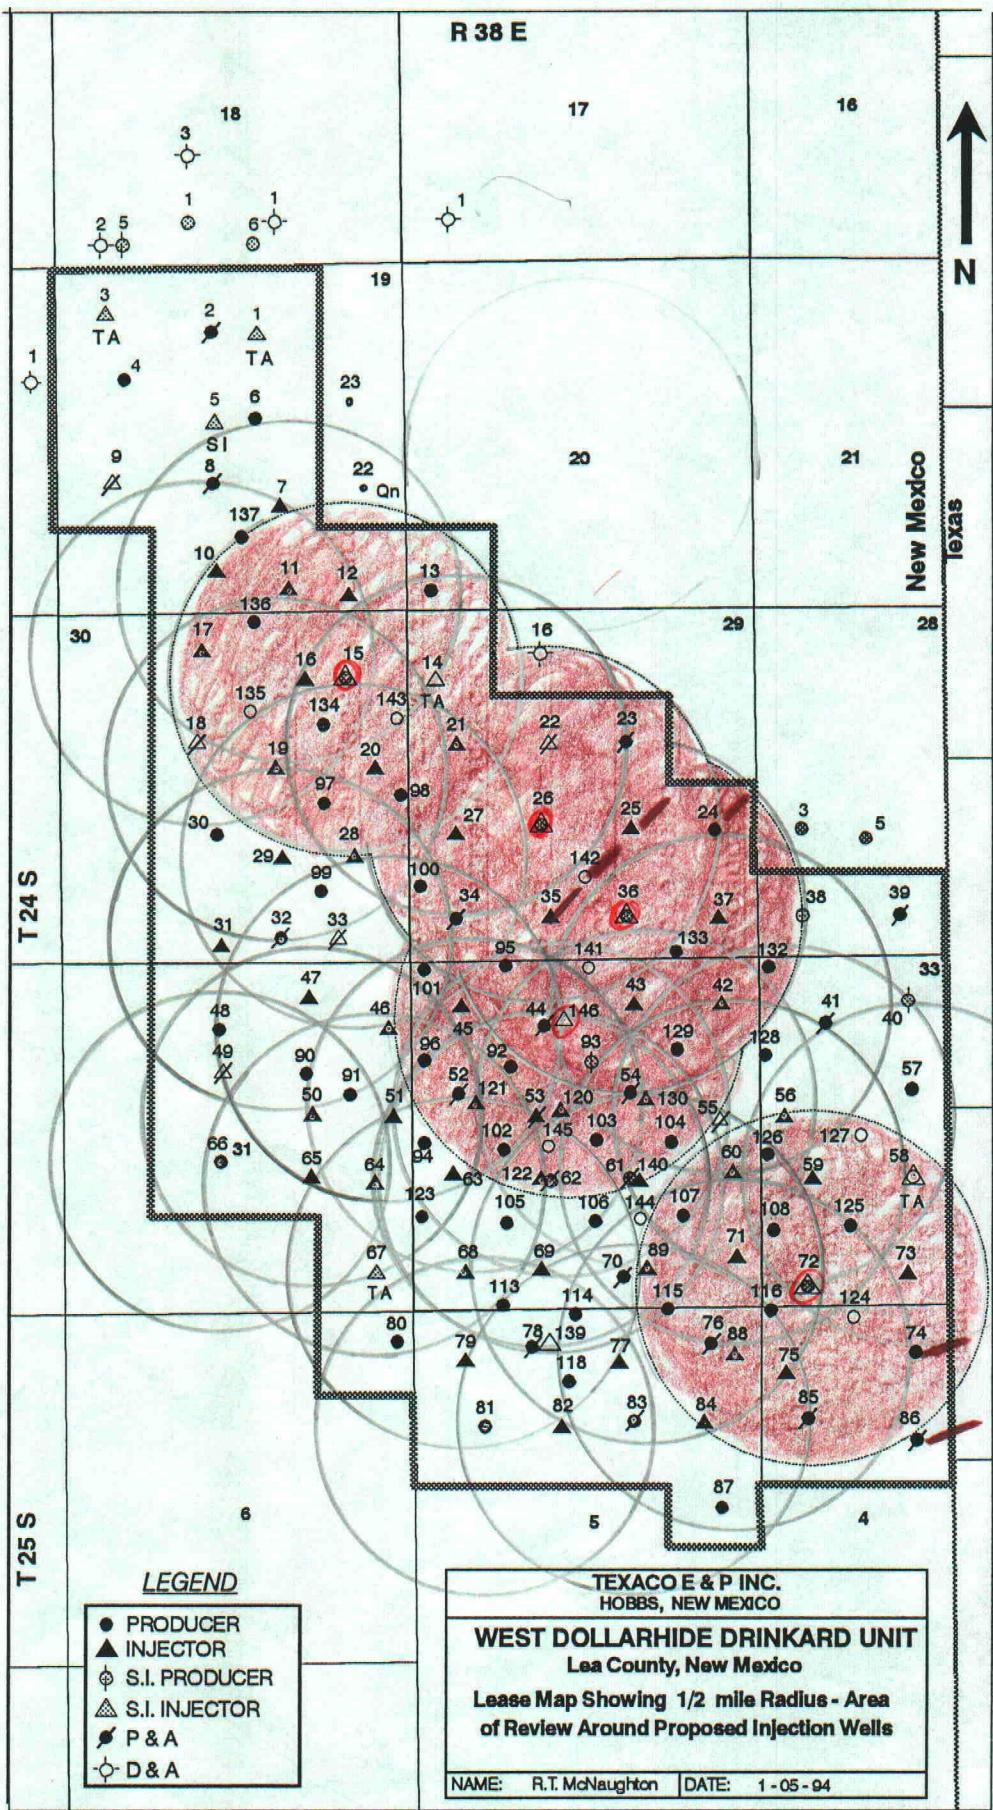

**NEW MEXICO OIL CONSERVATION DIVISION - Form C-108**

**West Dollarhide Drinkard Unit, Dollarhide Tubb Drinkard**

---

- VII. Proposed average daily injection rate per well is 250 Bbls per day and anticipated maximum rate is 400 Bbls per day. Maximum pressure will not exceed 1650 psi system working pressure. The initial average injection pressure will not exceed approximately 1300 psi (.2 psi/ft). Step rate and/or pump-in tests will be run to establish a higher limit with the authorization of the NMOCD. The system will be closed.
  
- IX. Subject wells will be stimulated in stages with 1000 to 5000 gallons 15% NEFE and surfactants as needed. Rock salt blocks or ball diverters will be used as well as scale inhibitor chemicals.
  
- XII. Based on current geological and engineering data and a petrophysical rock-properties log, there is no evidence of natural or artificially induced open faults within the unitized interval or above. There is no communication between the injection zone and any subsurface source of drinking water.
  
- XIII. A Copy of the Legal Notice is attached. Copies of receipts for the application copies mailed to offset operators and the landowners are also attached.

# INSTRUCTIONS

This form is to be filed with the appropriate District Office of the Division not later than 20 days after the completion of any newly-drilled or deepened well. It shall be accompanied by one copy of all electrical and radio-activity logs run on the well and a summary of all special tests conducted, including drill stem tests. All depths reported shall be measured depths. In the case of directionally drilled wells, true vertical depths shall also be reported. For multiple completions, Items 25 through 29 shall be reported for each zone. The form is to be filed in quintuplicate except on state land, where six copies are required. See Rule 1105.

# INSTRUCTIONS

This form is to be filed with the appropriate District Office of the Division not later than 20 days after the completion of any newly-drilled or deepened well. It shall be accompanied by one copy of all electrical and radio-activity logs run on the well and a summary of all special tests conducted, including drill stem tests. All depths reported shall be measured depths. In the case of directionally drilled wells, true vertical depths shall also be reported. For multiple completions, Items 25 through 29 shall be reported for each zone. The form is to be filed in quintuplicate except on state land, where six copies are required. See Rule 1105.

## INSTRUCTIONS

This form is to be filed with the appropriate District Office of the Division not later than 20 days after the completion of any newly-drilled or deepened well. It shall be accompanied by one copy of all electrical and radio-activity logs run on the well and a summary of all special tests conducted, including drill stem tests. All depths reported shall be measured depths. In the case of directionally drilled wells, true vertical depths shall also be reported. For multiple completions, Items 25 through 29 shall be reported for each zone. The form is to be filed in quintuplicate except on state land, where six copies are required. See Rule 110S.

# INSTRUCTIONS

This form is to be filed with the appropriate District Office of the Division not later than 20 days after the completion of any newly-drilled or deepened well. It shall be accompanied by one copy of all electrical and radio-activity logs run on the well and a summary of all special tests conducted, including drill stem tests. All depths reported shall be measured depths. In the case of directionally drilled wells, true vertical depths shall also be reported. For multiple completions, Items 25 through 29 shall be reported for each zone. The form is to be filed in quintuplicate except on state land, where six copies are required. See Rule 1105.

## INSTRUCTIONS

This form is to be filed with the appropriate District Office of the Division not later than 20 days after the completion of any newly-drilled or deepened well. It shall be accompanied by one copy of all electrical and radio-activity logs run on the well and a summary of all special tests conducted, including drill stem tests. All depths reported shall be measured depths. In the case of directionally drilled wells, true vertical depths shall also be reported. For multiple completions, Items 25 through 29 shall be reported for each zone. The form is to be filed in quintuplicate except on state land, where six copies are required. See Rule 1105.

# INSTRUCTIONS

This form is to be filed with the appropriate District Office of the Division not later than 20 days after the completion of any newly-drilled or deepened well. It shall be accompanied by one copy of all electrical and radio-activity logs run on the well and a summary of all special tests conducted, including drill stem tests. All depths reported shall be measured depths. In the case of directionally drilled wells, true vertical depths shall also be reported. For multiple completions, Items 25 through 29 shall be reported for each zone. The form is to be filed in quintuplicate except on state land, where six copies are required. See Rule 1105.

# AFFIDAVIT OF PUBLICATION

State of New Mexico,  
County of Lea.

I, Kathi Bearden

General Manager

of the Hobbs Daily News-Sun, a daily newspaper published at Hobbs, New Mexico, do solemnly swear that the clipping attached hereto was published once a week in the regular and entire issue of said paper, and not a supplement thereof for a period.

of \_\_\_\_\_

two weeks.

Beginning with the issue dated

January 13, 19 94

and ending with the issue dated

January 21, 19 94

General Manager

Sworn and subscribed to before

me this 24 day of

January 94  
Kathi Bearden

Notary Public.

My Commission expires

March 15, 1997

(Seal)

This newspaper is duly qualified to publish legal notices or advertisements within the meaning of Section 3, Chapter 167, Laws of 1937, and payment of fees for said publication has been made.

## LEGAL NOTICE

January 13, 1994

Notice is hereby given of the application of Texaco Exploration & Production Inc., Attention: Terry L. Frazier, Area Manager, P.O. Box 730, Hobbs, New Mexico, 88240, Telephone (505) 393-7191, to the New Mexico Oil Conservation Commission, Energy and Minerals Department, for approval to convert four producing wells to water injection and to drill one injection well for the purpose of secondary oil recovery.

Unit Name: West Dollarhide Drinkard Unit, Lea County, New Mexico Conversion Well Numbers and Locations:

15 - Unit Letter A, 990 FNL & 990 FWL, Section 30, T24S, R38E

26 - Unit Letter K, 2080 FSL & 1980 FWL, Section 29, T24S, R38E

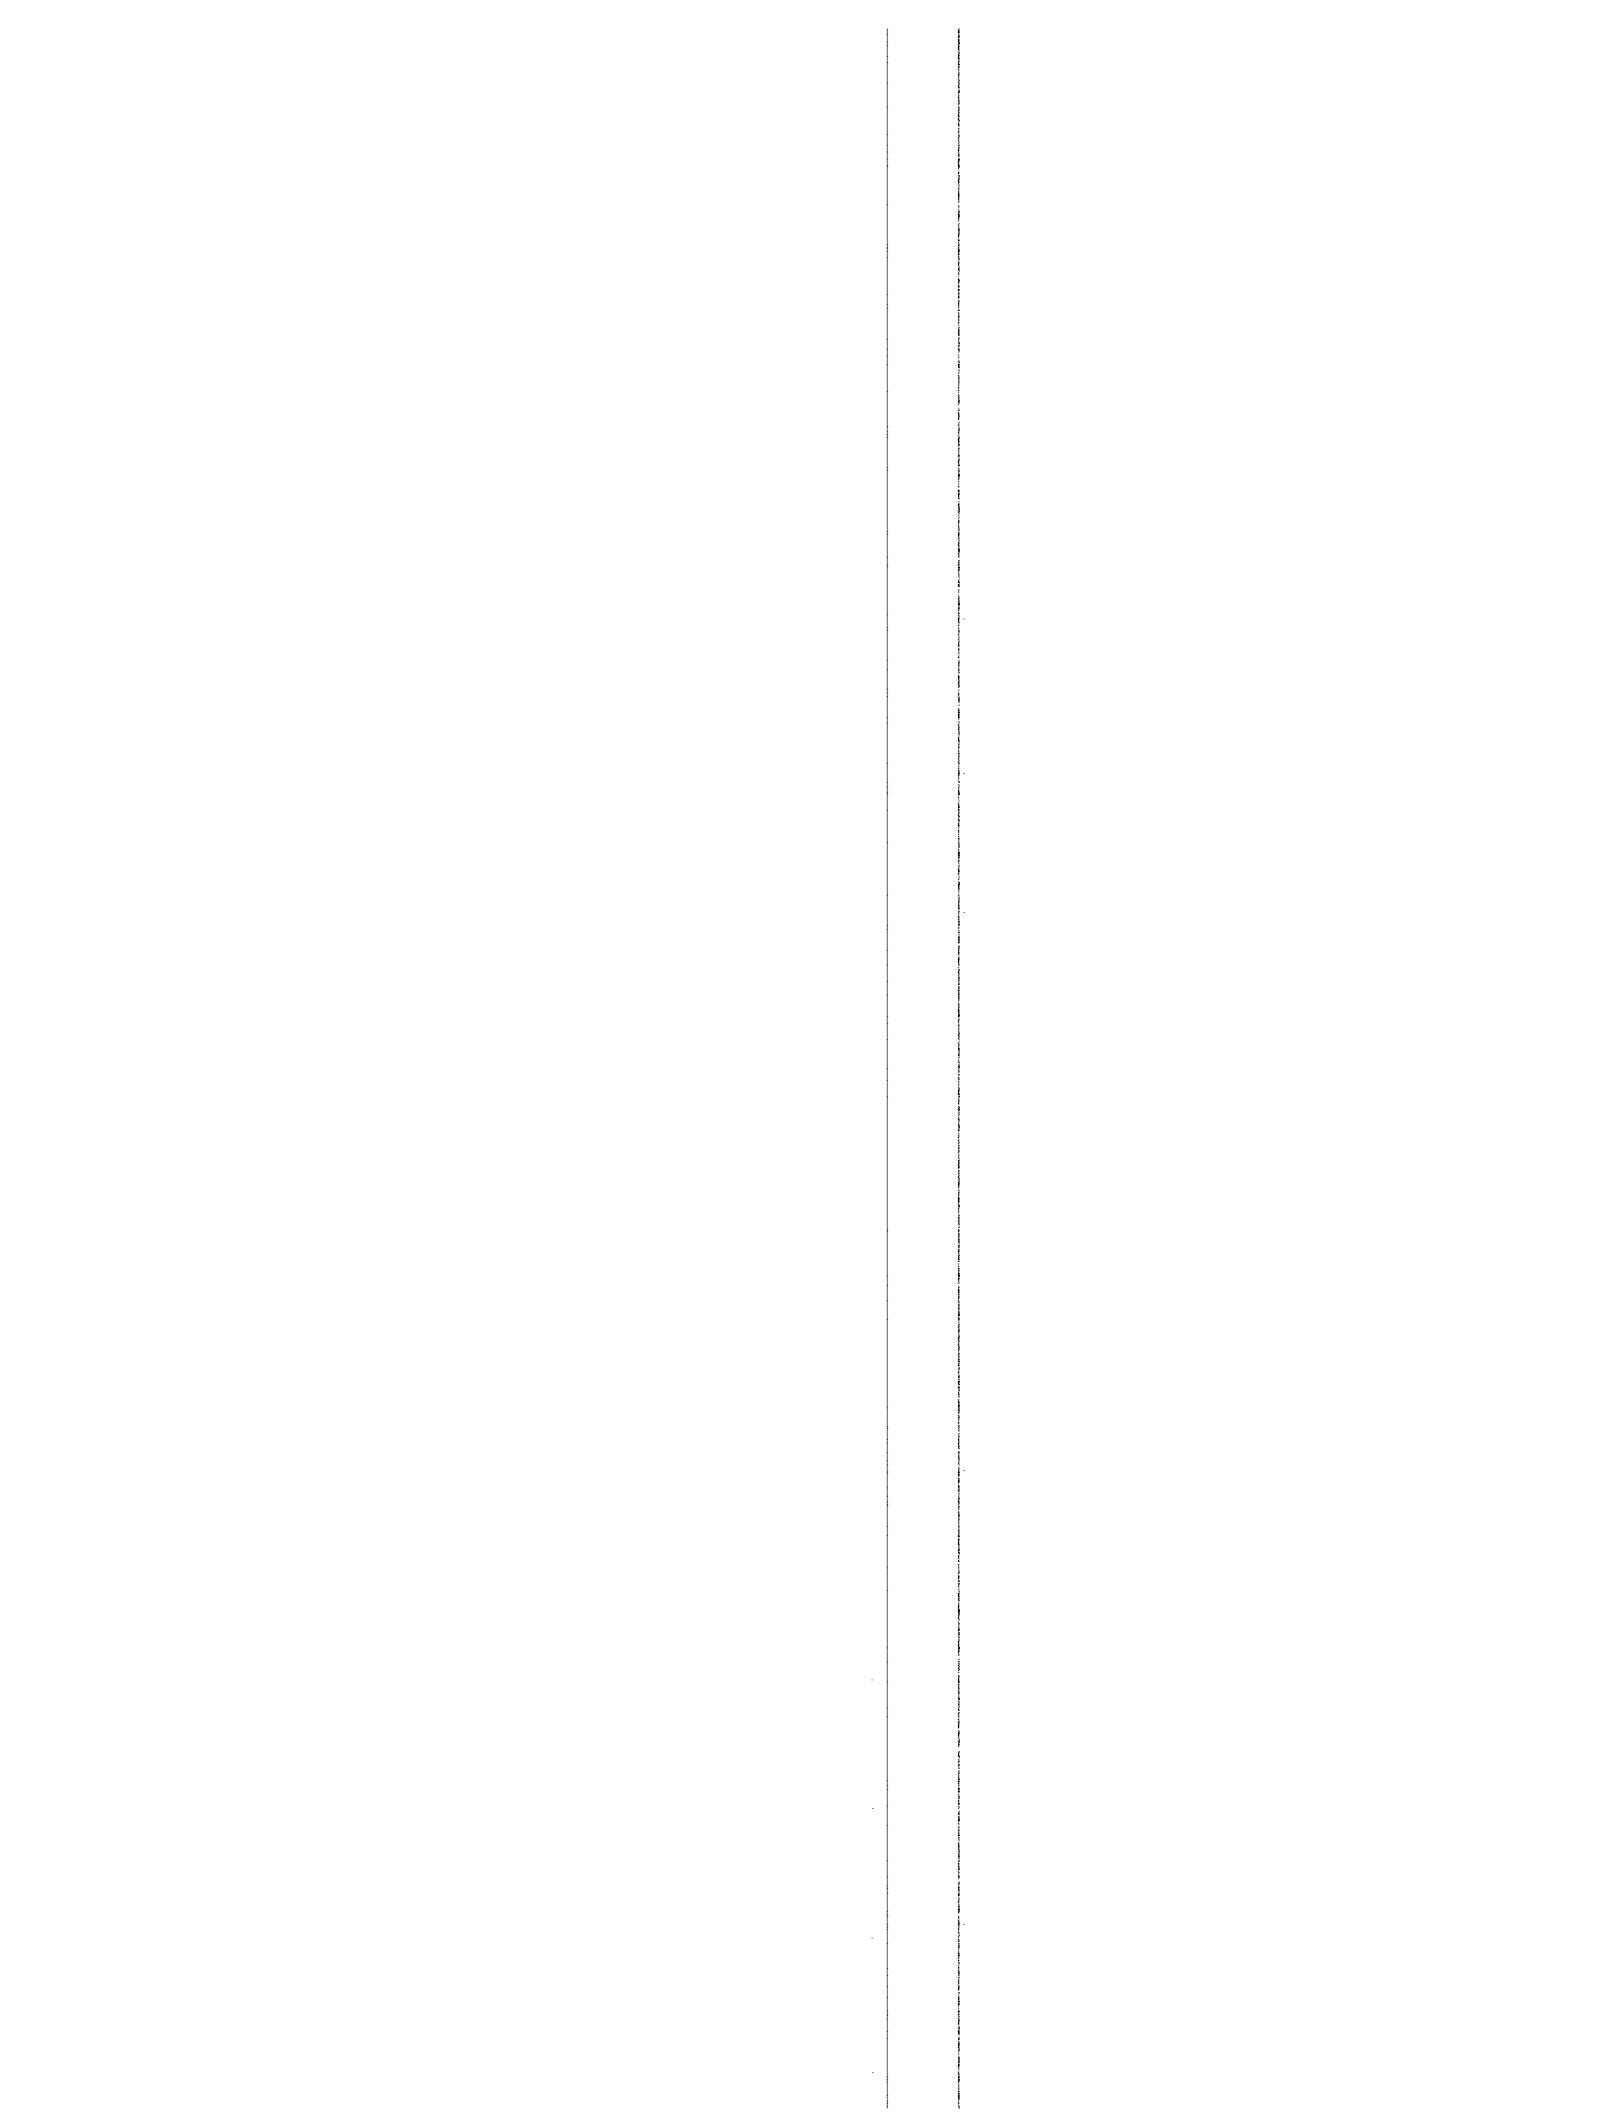

36 - Unit Letter O, 660 FSL & 1980 FEL, Section 29, T24S, R38E

72 - Unit Letter M, 330 FSL & 660 FWL, Section 33, T24S, R38E

Injection Well to be Drilled:

146 - Unit Letter C, 810 FNL & 2096 FWL, Section 32, T24S, R38E

The injection formation is Dollarhide Tubb Drinkard at a depth of 6500 feet below the surface of the ground. Expected maximum injection rate is 450 barrels per day, and expected maximum injection pressure is 1650 pounds per square inch. Interested parties must file objections or requests for hearing with the Oil Conservation Division, P.O. Box 2088, Santa Fe, New Mexico, 87501, within fifteen (15) days of this publication.
