RE: Additional Information Required

Dear Mr. Buttross,

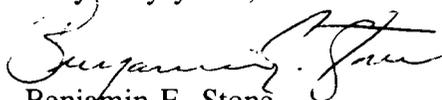

In reviewing your application for a four well expansion of your East Shugart Unit Waterflood, it became evident that some additional information is needed. This is as follows:

- 1) Construction Information (including TOC's) on Devon ESU Well Nos. 15, 28, 29, 54, and 59.
- 2) Construction Information (including TOC's) on a well in Unit Letter L of Section 34 identified only as "Well No.11". It may be one of Amoco's deep gas wells.
- 3) Devon ESU No. 28 (shown to be P&A'd) also requires a plugging schematic.
- 4) A waiver from Texas Oil & Gas if they still operate the Keohane Federal Well No.1. If not, please identify and notify the current operator.

As soon as this information is received, I will expedite the continuing processing of your company's application. Information may be faxed to (505)827-8177, Attn: Ben Stone, Rm.305.

Thank you for your attention.

Very truly yours,

  
Benjamin E. Stone  
Engineering Tech II
