Re: C-108
Caprock Maljamar Waterflood Unit
Lea County, New Mexico

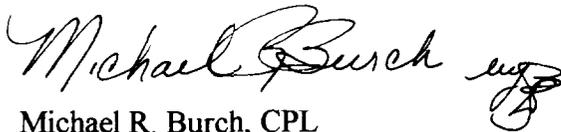

Dear Mr. Catanach:

As part of the C-108 dated August 16, 1996, for The Wiser Oil Company's Caprock Maljamar Waterflood Unit, the CMU #s 33, 34, 46, 47, 61, 77, 88, and 262 wells were included for your consideration as new water injection wells. The Wiser Oil Company intended to re-enter the #s 33, 46, 47, 61, & 77 and complete as water injection wells. They planned to convert the #s 34 and 88 to water injection, and the #262 was a new well in the process of being surveyed and permitted to replace the P&A'd CMU #75. We respectfully request withdrawal of these eight wells as new wells must be drilled to replace the #s 33, 34, 46, 47, 61, 77, and 88, and a location has not yet been determined for the CMU #262. As soon as plans have been finalized for these eight wells, a new C-108 will be submitted.

If you have any questions, please feel free to give me a call @ 505-623-3758.

Sincerely,

J. O. EASLEY, INC.

Michael R. Burch, CPL
