Attn: Mr. Ben Stone

RE: Devon Energy Corporation
Keel-West Unit Waterflood
Eddy County, New Mexico

Mr. Stone:

In reference to your letter dated January 8, 1996, please find enclosed the down hole schematics on Keel "B" #16, West "B" #4 and West "B" #2.

145
In reviewing our applications, we noticed that the #1 well in unit letter "P" of Section 10, as well as the H.E. West "A" #3 in unit letter "A" of Section 3 was not within a half mile radius of a well being applied for. At one time both were included in the area of review, but due to eliminating some applicants prior to sending our paperwork in, some wells within the "Area of Review" were incorrectly included.

11
After reviewing our current application and project, we also wish to withdraw application for the West "B" #35. This will exclude the Keel "B" #28 from the Area of Review wells, therefore, the downhole schematic is not included.

Please advise if additional information is required and direct questions regarding this matter to Randy Jackson at (405) 552-4560 or Diana Keys at (405) 552-4511.

Sincerely,

Devon Energy Corporation

Diana M. Keys
