Grayburg-Jackson Waterflood Project  
Russell/Turner Area- Phase 1  
Sections 7,18 & 19- T17S-R31E  
Eddy County, New Mexico

Gentlemen:

Please accept this letter as waiver of our objection to the referenced project. Our original notice of objection was dated April 10, 1996. Our recent phone conversation with Mr. David Catanach of NMOCD has provided us with the necessary well information that was needed to make a proper decision.

Yours truly,

James H. Arline  
Materials Coordinator

Gentlemen:

Please accept this letter as our official "Notice of Objection" to the complete referenced program. Our objection at this time is only because of a lack of proper notification. The only notice we have received is the attached certified letter. This notice does not provide us with the individual well data for the wells in the three sections that they plan to convert to water injection wells. Since notice is required for a well that is within 1/2 mile it would be necessary to have the individual well data to either object or not object to their well conversion. We do not believe this required proper and complete notice has been sent to the offset operators at this time.

Yours truly,

*James H. Arline*

Eddy County, NM

Gentlemen:

Please consider this letter as official notification that Devon Energy Corporation is in the process of filing applications to convert fifteen (15) wells to water injection wells in the above referenced sections. Our records indicate that you are an offset operator. As an offset operator you must be notified by Devon and you must file any objections or requests for hearings of administrative applications with the Oil Conservation Division of New Mexico within fifteen (15) days of receiving this notification.

Please direct any questions regarding this matter to the undersigned at 405/552-4560.

Sincerely,  
Devon Energy Corporation

Randy Jackson  
District Engineer
