Case 1771
Order P-4598

RE: Inclusion of Acreage Assigned
Tesoro's SFRR "A" Well No. 74
(Unit I & Lot 9, Sec. 1, T17N, R9W)
in the So. Hospah Lower Sand
Pressure Maintenance Project
McKinley County, New Mexico

Dear Sir:

Tesoro respectfully requests administrative approval to include the acreage dedicated to the above captioned well in Tesoro's South Hospah Lower Sand Pressure Maintenance Project. This well's assigned acreage is contiguous with that of units O & P in the same section, township and range which now comprises this project. Production response has been realized from wells on all three units as a result of the gas/water injection in wells no. 84 (O-1-17-9) and 87 (P-1-17-9).

Attached is a plat of the injection and producing wells located in these three units that are completed in the Lower Hospah Sand. The acreage now included in the project is outlined in yellow and the acreage proposed to be added is outlined in red.

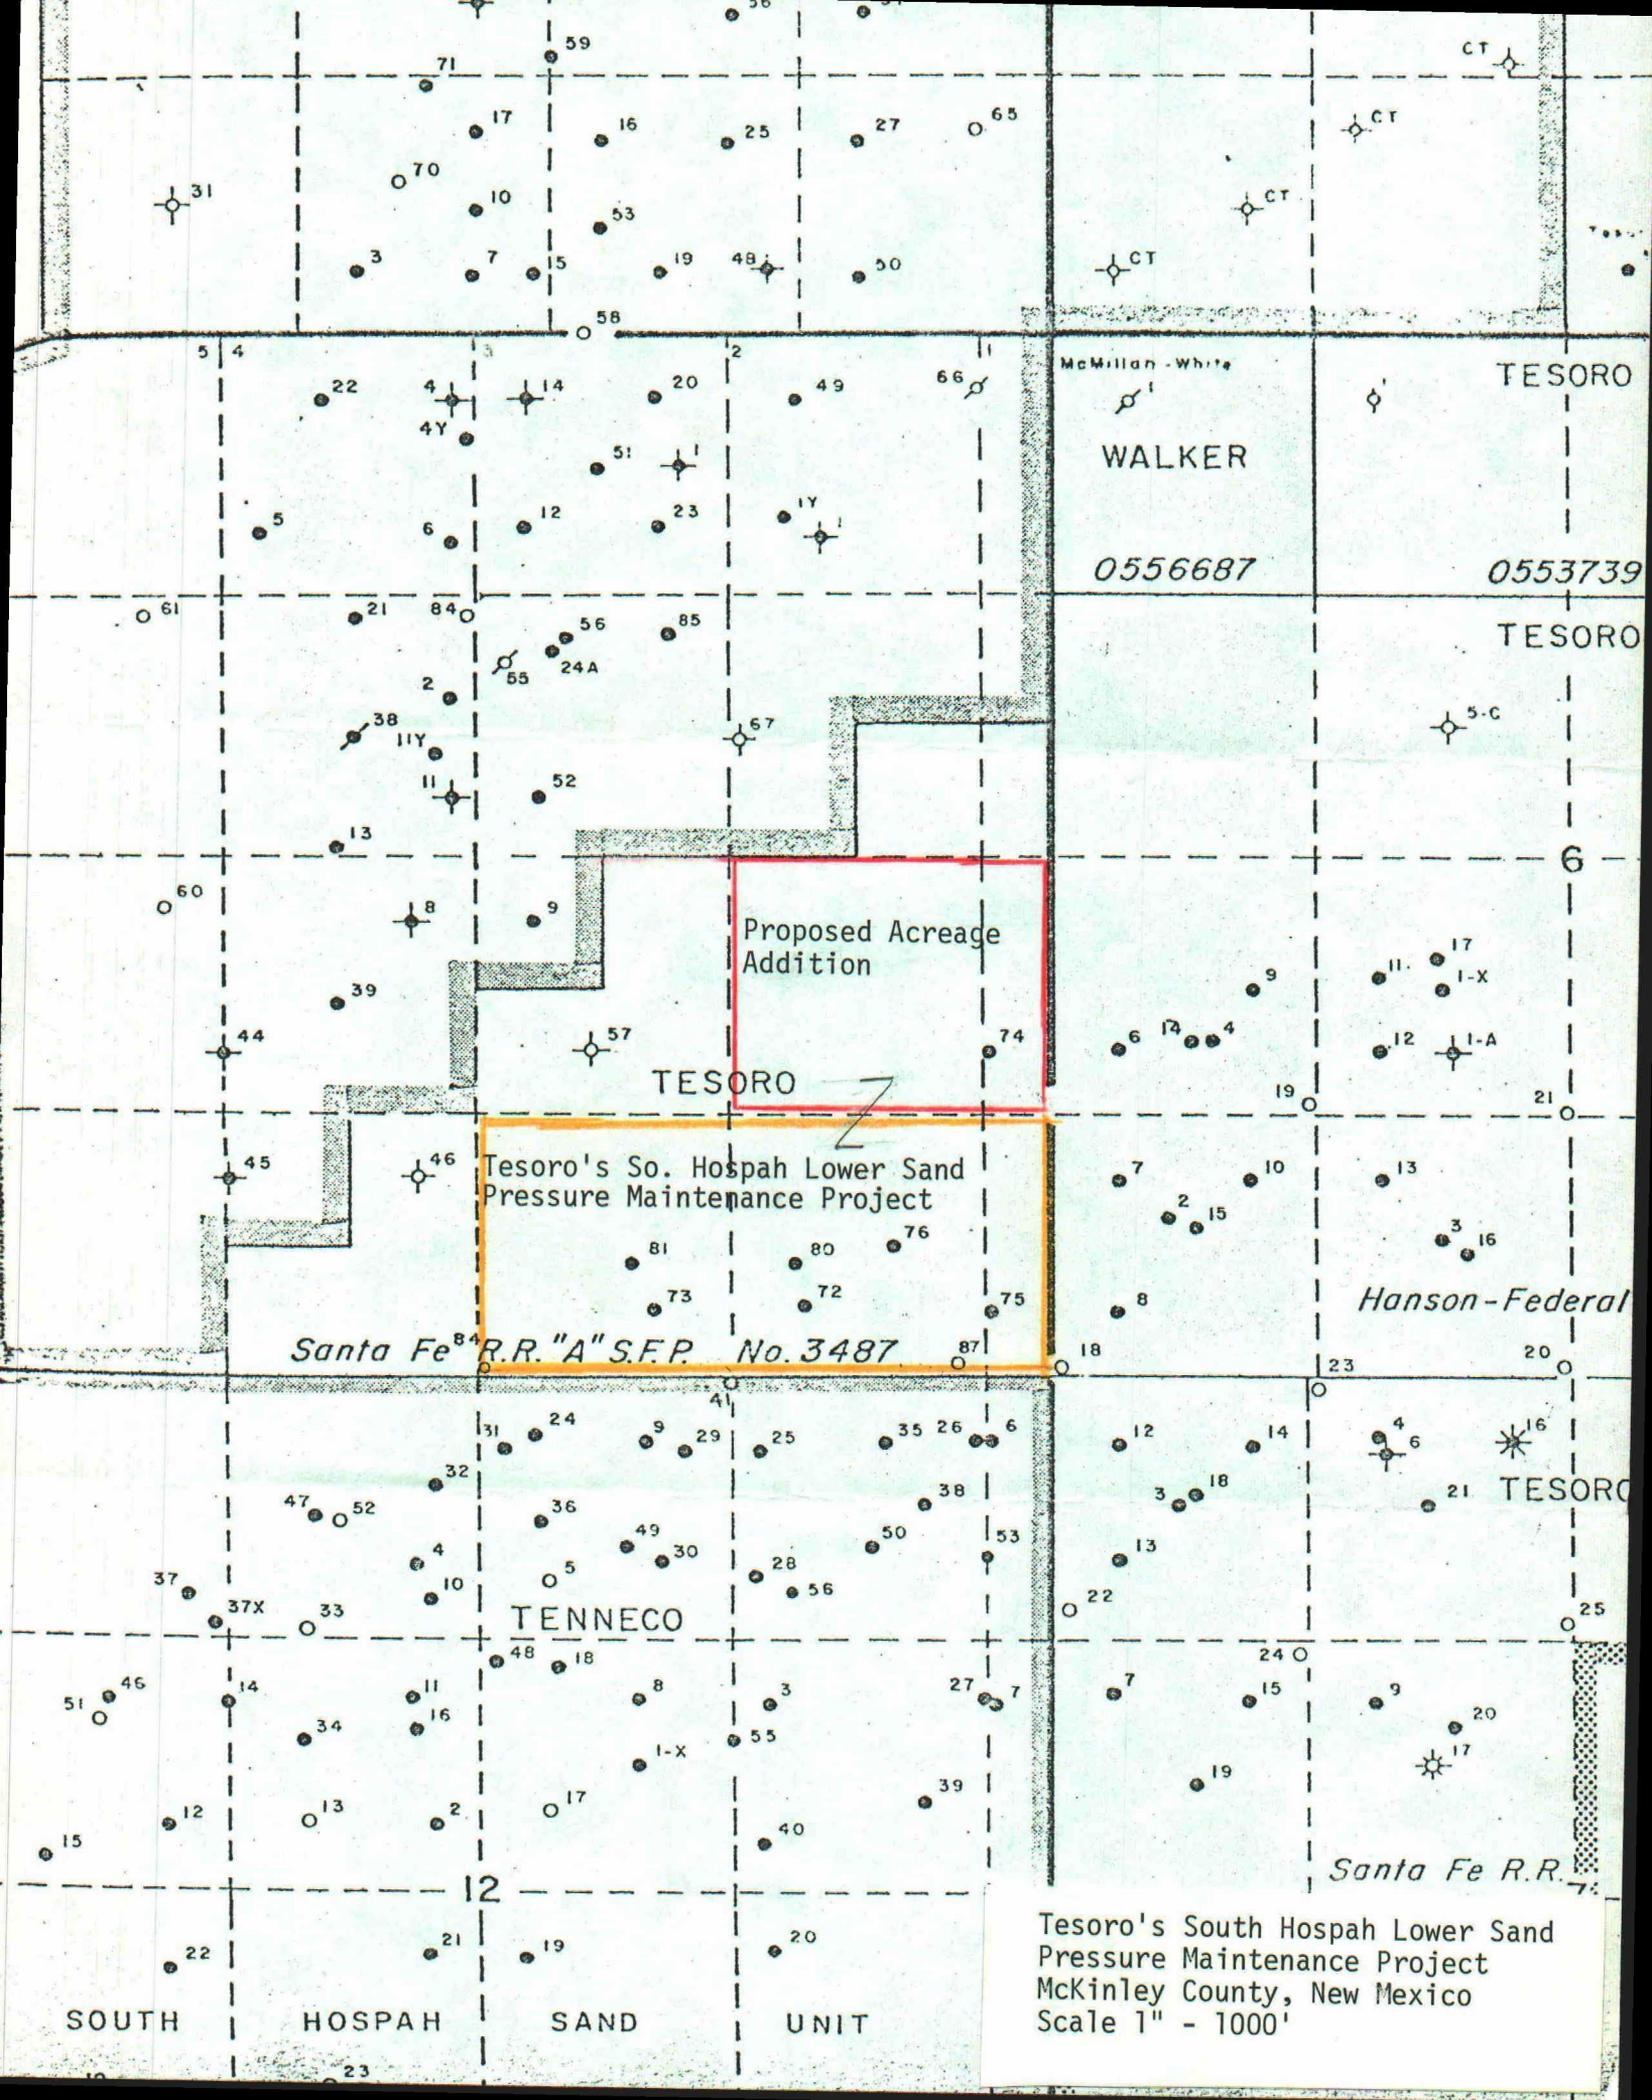

Very truly yours,

L. Charles Marquart
L. Charles Marquart
District Engineer
