Attention: Mr. David Catanach

Reference our application for unorthodox locations and conversion to injection for the South Hobbs (GSA) Unit dated October 1, 1985, File: SGH-1775-416.

Amoco Production Company hereby amends our original application for the proposed drilling location of South Hobbs (GSA) Unit No. 209. The location has been moved 35' North and 100' East to a staked location of 265' FNL x 1090' FWL, Section 8, T-19-S, R-38-E, Lea County, New Mexico. This move was necessary due to the original location being located in a dry lake bed. The building of this location would have obstructed the natural water drainage into the lake bed when it rains. The land owner uses this collected water for his livestock.

Attached is an amended Exhibit "A" and a new Form C-102 for South Hobbs (GSA) Unit No. 209. Please place these in the original application and destroy the previously submitted Exhibit "A" and Form C-102. Your prompt handling of this amendment and the processing of our original application will be greatly appreciated.

Page 2

Required notice of this amendment has been served by certified mail to the offset operator and to the surface owner on whose property the proposed injection well is located. Each of the parties shown on the attached service list has been furnished a copy of this letter complete with all attachments.

If you have any questions concerning this amendment, please contact Charles Herring in our Hobbs District Office, (505) 393-1781, Extension 252.
