ADDRESS REPLY TO:
P. O. BOX 6640
ROSWELL, NEW MEXICO

DOMESTIC PRODUCING DEPARTMENT

Mr. Lester Alston
Guardian for Candace Dickinson, Walter E. Dickinson,
and Wilson Gordon Dickinson II
Lovington, New Mexico

Dear Sir:

Attached is a copy of an application by The Atlantic Refining Company to the New Mexico Oil Conservation Commission requesting permission to convert the Dickinson "A-13" No. 1 well, NW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 13, T15S, R37E, Lea County, New Mexico, to a salt water disposal well in the Pennsylvanian formation. The application and notice of filing of application is the established procedure of the Commission.

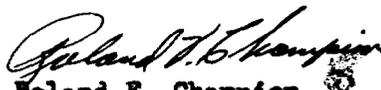

Conversion of this well is part of a salt water disposal project planned by the Denton operators to afford maximum protection of fresh water in the area. Informal approval of the conversion of the Dickinson "A-13" No. 1 to salt water disposal has been indicated by the NMOC staff.

At present the Dickinson "A-13" No. 1 well is producing 100% salt water from the Wolfcamp formation which formerly produced oil. Upon conversion of this well, the water produced throughout the field will be disposed of into the Pennsylvanian formation, which is not productive of oil or gas in this area. Such a project will benefit the surface owners as well as the operators.

We would appreciate a letter from you waiving any objection to using the above well for this project. We have not settled as yet for the surface needed as the design work is not completed. Your waiver, of course, would be subject to a satisfactory settlement. Many matters have yet to be worked out, but we must take this first step in getting the Commission approval before proceeding further.

Yours very truly,

THE ATLANTIC REFINING COMPANY

Gentlemen:

Attached are the required exhibits and application requesting permission to convert the Dickinson "A-13" No. 1 Well, NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 13, T-15S, R-37E, Lea County, New Mexico, to use as a salt water disposal well for the Denton Field.

Copies of this letter and the application have been sent to all offset operators, the surface owner, and the New Mexico State Engineer by registered mail.

Handwritten notes: "into", "Miss?", "WW", and a signature.

Respectfully submitted,
THE ATLANTIC REFINING COMPANY
