The proposed well is located in the Santa Fe area, near the intersection of Highway 144 and Highway 143. The proposed well is located in the Santa Fe area, near the intersection of Highway 144 and Highway 143.

SUBJECT: SALT WATER DISPOSAL WELL

ORDER NO. SWD-77

THE APPLICATION OF COASTAL STATES
GAS PRODUCING COMPANY FOR A SALT
WATER DISPOSAL WELL.

ADMINISTRATIVE ORDER
OF THE OIL CONSERVATION COMMISSION

Under the provisions of Rule 701 (C), Coastal States Gas Producing Company, made application to the New Mexico Oil Conservation Commission on September 26, 1968, for permission to complete for salt water disposal its Trigg Federal Well No. 1, located in Unit A of Section 20, Township 13 South, Range 33 East, NMPM, Lea County, New Mexico.

The Secretary-Director finds:

1. That application has been duly filed under the provisions of Rule 701 (C) of the Commission Rules and Regulations;
2. That satisfactory information has been provided that all offset operators, surface owners, and the New Mexico State Engineer Office have been duly notified; and
3. That the applicant has presented satisfactory evidence that all requirements prescribed in Rule 701 (C) will be met.
4. That no objections have been received within the waiting period prescribed by said rule.

IT IS THEREFORE ORDERED:

That the applicant herein, Coastal States Gas Producing Company, is hereby authorized to complete its Trigg Federal Well No. 1, located in Unit A of Section 20, Township 13 South, Range 33 East, NMPM, Lea County, New Mexico, in such a manner as to permit the injection of salt water for disposal purposes into the Devonian formation at approximately 13,270 feet to approximately 13,570 feet through 5 1/2-inch casing.

IT IS FURTHER ORDERED:

That jurisdiction of this cause is hereby retained by the Commission for such further order or orders as may seem necessary or convenient for the prevention of waste and/or protection of correlative rights; upon failure of applicant to comply with any requirement of this order after notice and hearing, the Commission may terminate the authority hereby granted in the interest of conservation. That applicant shall submit monthly reports of the disposal operation in accordance with Rules 704 and 1120 of the Commission Rules and Regulations.

APPROVED at Santa Fe, New Mexico, on this 21st day of October, 1968.

STATE OF NEW MEXICO
OIL CONSERVATION COMMISSION

A. L. PORTER, Jr.
Secretary-Director

The first part of the document discusses the importance of maintaining accurate records. It emphasizes that proper record-keeping is essential for ensuring the integrity and reliability of the data collected. This section also outlines the various methods used to collect and analyze the data, highlighting the challenges faced during the process.

In the second part, the focus shifts to the results of the study. The data shows a clear trend in the behavior of the system under investigation, which is consistent with the theoretical predictions. The analysis reveals that the system exhibits a high degree of stability and accuracy, indicating that the proposed model is well-suited for the task at hand.

The third part of the document provides a detailed discussion of the implications of the findings. It suggests that the results have significant implications for the field of study, particularly in terms of the design and implementation of similar systems. The authors conclude that the study has provided valuable insights into the underlying mechanisms of the system, and that these findings will be useful for future research.

Finally, the document concludes with a summary of the key points and a list of references. The authors express their appreciation to the funding agencies and the research assistants who made the study possible. They also mention that the work is part of a larger project aimed at understanding the complex interactions between different components of the system.

The authors would like to thank the following individuals for their assistance and support during the course of the study: [Names of individuals].

This work was supported by the [Funding Agency] under grant number [Number].
