RE: Salt Water Disposal Easement No. SWD-083

Dear Ms Page:

It has been brought to our attention by our Land Use Specialist that the above salt water disposal well is disconnected and no activity reported to the Oil Conservation Division.

If your intentions are not to renew this easement, proper steps should be taken to plug and abandon the well. Please provide us with a time frame for plugging the well by March 2, 1992, so we may order a site inspection before cancellation of the Salt Water Disposal Easement.

If you have any questions, call Leo Maes at 827-5725.

Sincerely,

Pleas M. Glenn  
Assistant Commissioner
