SUBJECT: SALT WATER DISPOSAL WELL

ORDER NO. SWD-177

THE APPLICATION OF TULF OIL CORPORATION FOR A FALT WATER DISPOSAL WELL.

ADMINISTRATIVE ORDER OF OHE OIL CONSERVATION COMMISSION

Under the provisions of Rule 701 (C), Gulf Oil Corporation made application to the New Mexico Oil Conservation Commission on September 20, 1376, for permission to complete for salt water disposal its Learcy McBuffington Well No. 12 located in Unit I of Section 13, Downship 25 South, Range 37 East, MMPM, Lea County, New Mexico.

The Secretary-Director finds:

- 1. That application has been duly filed under the provisions of Rule 701 (C) of the Commission Rules and Regulations;
- 2. That satisfactory information has been provided that all offset operators and surface owners have been notified; and
- 3. That the applicant has presented satisfactory evidence that all requirements prescribed in Rule 701 (C) will be met.
- 4. That no objections have been received within the waiting period prescribed by said rule.

IT IS THEREFORE ORDERED:

That the applicant herein, Gulf Oil Corporation, is hereby authorized to complete its Learcy McBuffington Well No. 12 located in Unit I of Section 13, Township 25 South, Range 37 Fast, NMPM, Lea County, New Mexico, in such a manner as to permit the injection of salt water for disposal purposes into the San Andres formation at approximately 3900 feet to approximately 4300 feet through 2 3/8 inch plastic lined tubing set in a packer located at approximately 3350 feet.

IT IS FURTHER OPDERED.

That the applicant shall take all steps necessary to ensure that the injected water enters only the proposed injection interval and is not permitted to escape to other formations or onto the surface;

That the casing-tubing annulus shall be loaded with an inert fluid and equipped with a pressure gauge at the surface of left open to the atmosphere to facilitate detection of leakage in the casing, tubing, or packer;

That the injection well or system shall be equipped with a pop-off valve or acceptable substitute which will limit the wellhead pressure on the injection well to no more than 750 psi;

That the operator shall notify the supervisor of the Commission's Hobbs District Office before injection is commenced through said well:

That the operator shall immediately notify the supervisor of the Commission's Hobbs District Office of the failure of the tubing, casing, or packer in said well or the leakage of water from or around said well and shall take such steps as may be timely or necessary to correct such failure or leakage.

PROVIDED FURTHER, That jurisdiction of this cause is hereby retained by the Commission for such further order or orders as may seem necessary or convenient for the prevention of waste and/or protection of correlative rights: upon failure of applicant to comply with any requirement of this order after notice and hearing, the Commission may terminate the authority hereby granted in the interests of conservation. That applicant shall submit monthly reports of the disposal operation in accordance with Rule 704 and 1120 of the Commission Rules and Regulations.

APPROVED at Santa Fe, New Mexico, on the 3th day of October, 1976.
