RE: RECLASSIFICATION OF WELL FROM DISPOSAL TO INJECTION
Cline Federal #4 Unit K, Sec. 15, T23S, R37E

Gentlemen:

We have received a copy of your sundry report from the BLM indicating you want to change the well designation from salt water disposal to water injection. Since this well was permitted as a water disposal well under SWD-362 you will need additional approval from our Santa Fe office to establish an injection project.

Please contact David Catanach in our Santa Fe office at (505) 827-5807 for additional information on how this can be done.

Very truly yours,

OIL CONSERVATION DIVISION

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Request permission to change the well designation from salt water disposal well to water injection well. This well was an oil producer in the Penrose formation prior to being converted to an injection well into the same zone. This lease is directly offset by two (2) Texaco Operated Penrose formation waterfloods, the Skelly Penrose Unit to the north and the New Mexico BZ State NCT 8 Lease to the west. This well supplies pressure support from the east benefiting at least three (3) Penrose producers. (See attached plat)

Will need additional approval from Santa Fe
