RE: Proposed Corral Draw #2
Saltwater Disposal Well
Sec. 22-T25S-R29E
Eddy Co., NM

Dear Mr. Catanach:

At your request I have located a temperature log on the Corral Draw #2 well which verifies the top of cement to be at +/-1105 feet. I have enclosed a copy of this survey and a sundry notice that was filed by Mobil (previous operator) which verifies that this survey was run one day after cementing the well with 675 sacks cement at 4225 feet. I believe this should satisfy all the necessary requirements for our application. If so we would appreciate your approval of our application as quickly as possible so that we may begin construction of our pipeline and related facilities.

Yours truly,

Eddy County, NM

Dear Mr. Catanach,

Enclosed please find a facsimile copy sent to me by the Carlsbad - Current Argus newspaper to verify proof of publication of our application to convert the Corral Draw #2 well to a saltwater disposal. This advertisement ran November 7, 1991.

If no objections to our application are filed within the required 15 days we would like to commence this project as soon as practically possible. I hope you will find time to review our application in the mean time so that if there is any additional information you might require I could provide it. Thank you for your time and consideration.

Yours truly,
