*RE: Injection Pressure Increase  
R.A. State No. 1  
"K" 31-18S-36E  
Lea County, New Mexico*

Dear Sir:

Reference is made to your request dated June 26, 1992, to increase the surface injection pressure on R.A. State No. 1. This request is based on a step rate tests conducted on this well June 19, 1992. The results of the tests have been reviewed by my staff and we feel an increase in injection pressure on this well is justified at this time.

You are therefore authorized to increase the surface injection pressure on the following well:

WELL AND LOCATION

MAXIMUM INJECTION  
SURFACE PRESSURE

R.A. State No. 1  
1980' FSL & 1980' FWL  
"K" 31-18S-36E

1070 PSIG

Unichem International, Inc.  
July 7, 1992  
Page 2

The Division Director may rescind this injection pressure increase if it becomes apparent that the injected water is not being confined to the injection zone or is endangering any fresh water aquifers.

Sincerely,

A handwritten signature in black ink, appearing to read "William J. LeMay". The signature is fluid and cursive, with a long, sweeping tail that extends downwards and to the right.

William J. LeMay  
Director
