Mr. David Catanach  
Oil Conservation Division  
P.O. Box 2088  
Santa Fe, NM 87504-2088

Dear David:

As per our conversation concerning an addition to the Bison Petroleum SWD application. We would like to add an additional injection interval to include the Wolfcamp formation from 8162 to 8282 with packer set at approximately 8100, as well as the Cisco Bough C formation at a depth from 8802-8950, as previously submitted. Enclosed is the legal notice and notice requirements. A review of records was done and all offset wells are completed in the San Andres formation. The well still qualifies for administrative approval.

If additional information is needed or if you have any questions, please call. Thanks for your help in this matter.

Sincerely,

Eddie W. Seay, Agent
