Attn: Mr. Joe Igo

***AMENDMENT OF DIVISION ORDER SWD-551***

Dear Mr. Igo,

Reference is made to your recent request to add perforations, thus extending the injection interval in your Big Eddy Unit Well No.117, permitted by Division Order SWD-551. Additional perforations are proposed from 4289 feet to 4770 feet. This will allow injection into the Cherry Canyon formation as well as the Brushy Canyon which is permitted by SWD-551. Injection pressure will still be set at a maximum of 900 psig as allowed by an increase in injection pressure approved May 18, 1994.

Division Order SWD-551 is hereby amended to include the above specifications.

Sincerely,

A handwritten signature in black ink, appearing to read "William J. LeMay".

William J. LeMay  
Director
