Gentlemen:

By Application dated May 6, 1994, Pogo Producing Company has applied to the New Mexico Oil Conservation Division ("NMOCD") for administrative approval of authorization to inject (i.e., dispose of) saltwater into the referenced well. A copy of the Application (NMOCD's Form C-108) submitted by Pogo to the Division is enclosed for your information and files.

If you do not object to the above-mentioned administrative application and are willing to waive the fifteen (15) day notice/objection period referred to hereinbelow, please indicate same by signing this letter in the space provided below and returning one (1) signed copy of this letter to me by the earliest possible date. However, if you object to and/or want to have this matter heard at a hearing with the NMOCD, you must file your objections and/or requests for a hearing of the above-mentioned administrative application within fifteen (15) days of the date of this letter.

Thank you for your assistance in this matter. If you have any questions, please call.

Yours very truly,

POGO PRODUCING COMPANY

Ladies and Gentlemen:

As recently discussed with your Ms. Carmen Flinn, attached is a copy of a Legal Notification, concerning the referenced well. Pogo requests this Notification be advertised in your newspaper on the earliest possible date, which, according to Ms. Flinn, will be either Wednesday or Thursday of this week.

Please provide the undersigned with proof of publication, which should include a copy of the legal advertisement. Also, please advise as to the amount you require for such service.

If you have any questions, please contact the undersigned.

Yours very truly,

Public Notice

Application for Authorization to Inject Saltwater

Pogo Producing Company, P. O. Box 10340, Midland, Texas 79702-7340 (Contact - Richard L. Wright at 915/682-6822) has applied to the New Mexico Oil Conservation Division for Administrative Approval for Authorization to inject saltwater into its DiMaggio Well No. 1, located 1650' FSL and 1693' FEL of Section 16, T-26-S, R-29-E, N.M.P.M., Eddy County, New Mexico. The purpose of such well will be to dispose of saltwater produced from Pogo's nearby wells. The injection interval will be in the Bell Canyon and Upper Cherry Canyon formations, between 2,900'-4,100' beneath the surface, with an anticipated maximum injection rate of approximately 3,000 BWPD and an estimated maximum injection pressure of 725 psi. Any interested parties must file objections or requests for a hearing with the New Mexico Oil Conservation Division, P. O. Box 2088, Santa Fe, New Mexico 87504-2088 within fifteen (15) days from the date of this advertisement.

Pogo's NM-525, N.E. Red Bluff Prospect

Gentlemen:

As I discussed with your Mr. David R. Catanach on this date, enclosed is an original and one (1) copy of Application for Authorization to Inject (NMOCD's Form C-108) dated May 6, 1994, concerning the conversion of the referenced well to a saltwater disposal well. Pogo requests that this application be given administrative approval by the earliest possible date.

Accordingly, Pogo has notified all offset leasehold operators within a one-half (1/2) mile radius of the above-mentioned well, as well as the owner of the surface upon which such well is located, of its intention to convert such well to a saltwater disposal well. Also, Pogo has requested that the Carlsbad Current-Argus, a newspaper published and distributed daily at the City of Carlsbad, New Mexico, print a Public Notice concerning this conversion of such well on or before May 19, 1994. A copy of the notice letter to offset operators and others, and the Public Notice, are enclosed herewith. Upon receipt of all proof of mailing and legal publication, a copy of same will be forwarded to you, so you can proceed with securing administrative approval of Pogo's above-mentioned application.
