OIL CONSERVATION DIVISION
SANTA FE

Dear Sir:

Anadarko Production Company hereby requests administrative approval for "Off-Lease Storage" (Rule 309-C).

We wish to combine the production from our Continental State wells #1, #2 and #3 with the production from the Continental State wells #5, #6 and #7. All these wells have the same State Oil and Gas Lease Number (B-8096) and the same percentage of WI, RI and ORI. We would also like to combine the production from our Dickey Sullivan well #1 with the production from our Dickey Sullivan Well #2. These two wells have the same State Oil and Gas Lease Number (B-8326) with the same percentage of WI, RI and ORI.

With your approval we will build a central tank battery located on our Continental State B lease in Section 9, Unit Letter P, T19S, R29E, Eddy County, New Mexico. This central tank battery will service four separate leases: (1) Continental State, (2) Continental State "A", (3) Continental State "B" and (4) Dickey Sullivan. There will be no commingling of oil as each lease will have separate facilities incorporated into this battery.

The following Exhibits are enclosed for your information:

Exhibit #1 - Small scale map showing location of leases in relation to Loco Hills, New Mexico Townsite.

Exhibit #2 - Small scale map showing leases involved.

Exhibit #3 - Proposed new tank battery layout.

~~Exhibit #4 - Proof of ownership.~~

discard

Exhibit #5 - Plat showing location of wells, formation(s) completed in and location of new tank battery.

Exhibit #6 - Letter from Commissioner of Public Lands.

If further information is needed, please contact me at the address or telephone number shown in our letterhead. Your prompt approval of this "Off-Lease Storage" facility will be greatly appreciated.

Yours very truly,

Truman D. Jones
