Dear Mr. Nutter,

Reference is made to your letter dated February 22, 1985, wherein on behalf of Hamon Oil Company, you have requested our approval for the off-lease measurement and storage of EK-Bone Spring production from the State LG-2484 Well No. 1 located on State Lease No. LG-2484 in a tank battery to be located on State Lease No. V-697.

You are hereby given approval to the above request. All hydrocarbon production, both gas and oil, should at all times be isolated, and there shall be no commingling of the hydrocarbon production between leases until after being sold. The Commissioner of Public Lands reserves the right to amend or withdraw this approval at his discretion if it is against the best interest of the State of New Mexico.

Your filing fee in the amount of Thirty Dollars has been received.

If we may be of further help please do not hesitate to call on us.

Very truly yours,

JIM BACA
