Dear Mr. Quintana:

Re: Exception to Rule 303-A to Commingle
Production from Warren State & Warren
State "A", Sec. 28, T11S, R33E, Lea
County, New Mexico

Per our telephone conversation of July 25th, I am enclosing a copy of the letter written by J. K. Gleitman, Operations Manager, Plat and Schematic Diagram regarding an exception to Rule 303-A to commingle production from our Warren State & Warren State "A" leases.

In talking with you you mentioned you had not received this information and for me to send you a copy and that you would handle it upon its receipt. We appreciate your help.

Yours very truly,

Gentlemen:

Re: Exception to Rule 303-A to Commingle
Production from ~~Warren State~~ & Warren
State "A", Sec. 28, T11S, R33E, Lea
County, New Mexico

Tipperary Oil & Gas Corporation respectfully requests an exception to Statewide Rule 303-A whereby it proposes to commingle production from its Warren State and Warren State "A" leases. Each lease has one well producing from the Pennsylvanian pool. Both these leases produce a 45° gravity pipeline quality crude. I am enclosing a plat along with a schematic of the proposed facilities for this commingling operation. Since there are only two wells involved in this operation, we propose metering production from one of the heater treaters and subtracting that volume from the total volume produced in the stock tanks to determine production from the other well. We also have provided a by-pass downstream of the meter to a separate tank whereby we can periodically check to see that the meter readings are correct.

If you have any questions, please contact me.

Yours very truly,

A handwritten signature in dark ink, appearing to read "J. K. Gleitman". The signature is fluid and cursive, with a long vertical line extending downwards from the end of the name.
