Mr. Joe D. Ramey
New Mexico Oil Conservation Commission
P.O. Box 2088
Santa Fe, New Mexico 87501

Dear Sir:

Amerada Hess Corporation request permission to consolidate the batteries and commingle the production of the State BT "M" and State BT "P" leases.

The leases are located in the Bagley Penn., North Field. The State BT "M" #2 is located in Unit H, Section 33, T-11-S, R-33-E, Lea County, and the State BT "P" No. 1 is located in Unit E, Section 34, T-11-S, R-33-E, Lea County. They are one well leases producing from the Penn. formation.

Consolidation of the batteries and commingling the production will lower the maintenance and operating cost which will lower the economic limit and therefore extend the producing life of the wells.

These are marginal wells and production will accounted for and determined by quarterly well test.

Very truly yours,

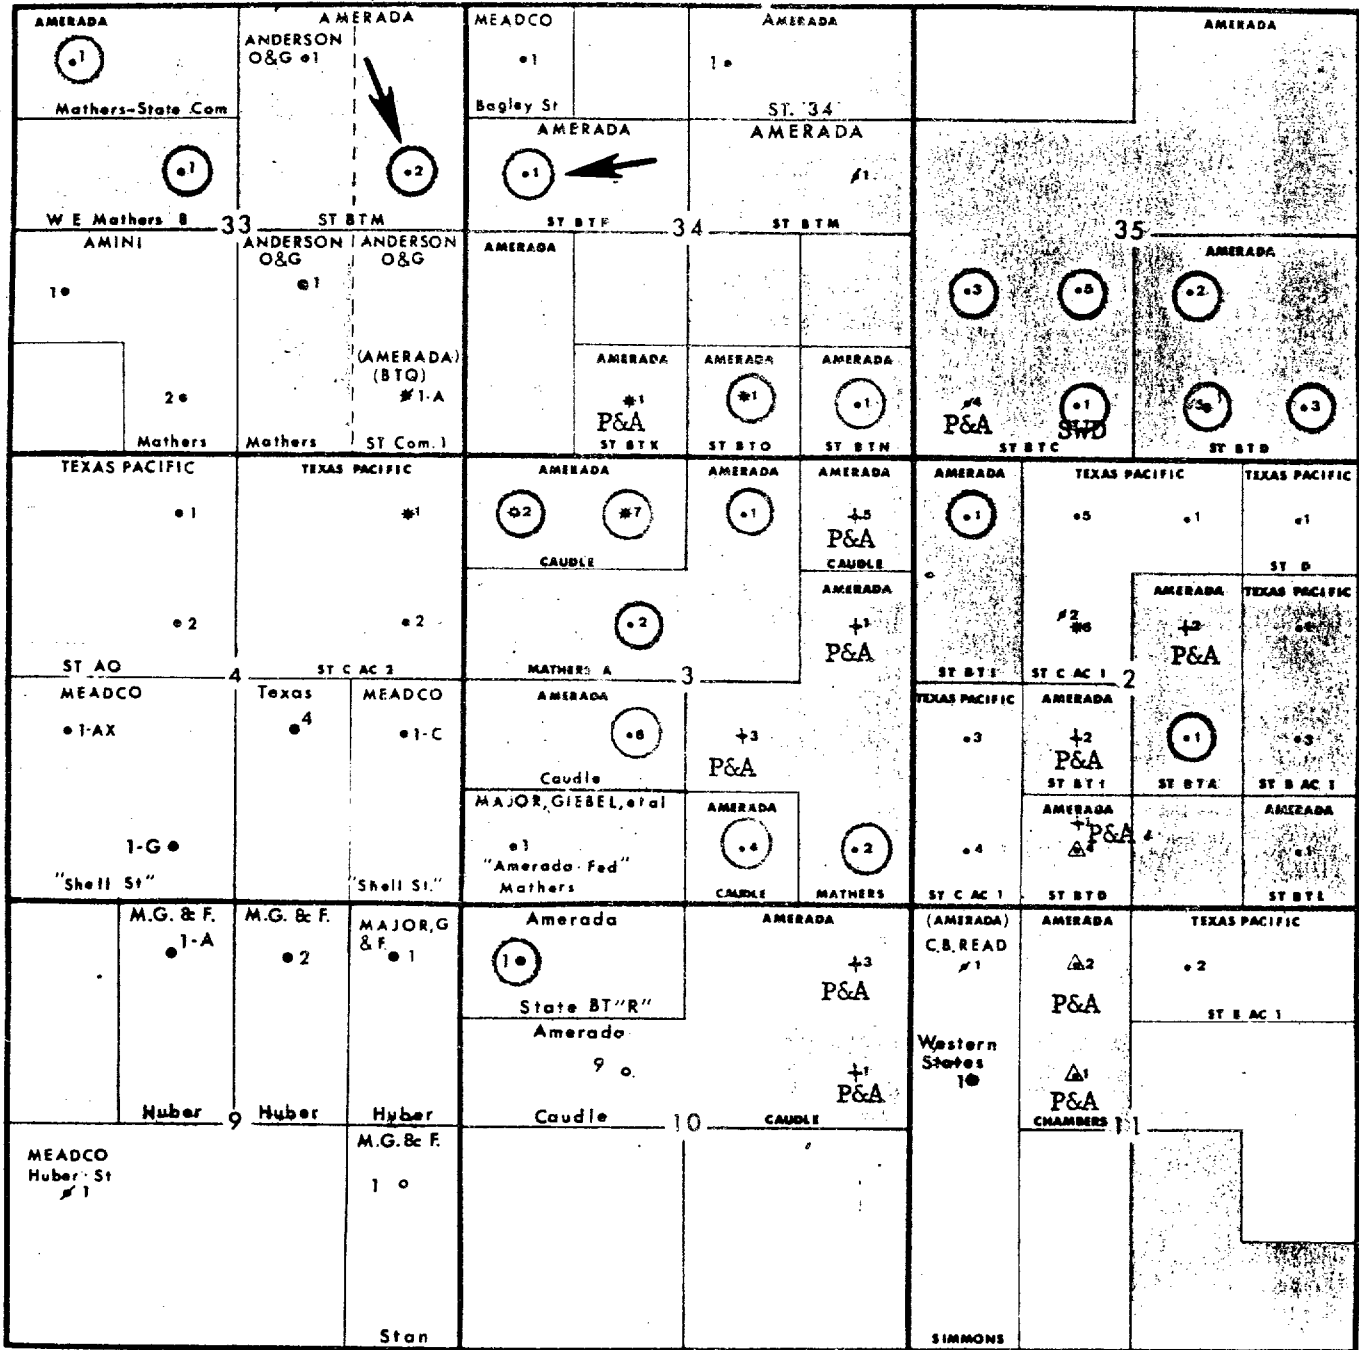

Merlin C. Black
