REQUEST FOR AMENDMENTS
TO ADMINISTRATIVE ORDERS
CTB-240 AND PLC-42,
MOBIL OIL CORPORATION'S
BRIDGES-STATE LEASE, STATE "JJ"
LEASE, STATE "A" COM. LEASE, AND
STATE "MM" LEASE, NORTH
VACUUM A&O POOL,
LEA COUNTY, NEW MEXICO

Gentlemen:

Mobil Oil Corporation respectfully requests that Administrative Order CTB-240, dated July 27, 1972, be amended so as to permit the commingling of production from the North Vacuum A&O Pool for the State "JJ" Lease in the N/2 SW/4 Section 7, T17S, R35E, in addition to the presently commingled production from the State "MM" lease and the State "A" Com. Lease in the E/2 SW/4 and S/2 SE/4 Section 7, T17S, R35E, Lea County, New Mexico.

The production from the State "JJ" Lease is presently commingled with production from the Bridges-State Lease by authority granted on April 4, 1972 in Administrative Order PLC-42; however, we now request that the State "JJ" Lease in the N/2 SW/4 Section 7, T17S, R35E, be deleted from said Order PLC-42 at a date to be concurrent with the effective date of the Proposed North Vacuum A&O Unit (Case No. 4830, September 27, 1972 NMOCC Docket). (Expected date December 1, 1972).

All subject leases in this application have common ownership, working interest ownership, royalty ownership and O&A ownership. The production of all wells in this application are of marginal nature; therefore, we request that the permission granted in Order CTB-240 to allocate production to each well by quarterly well test be extended to this request.

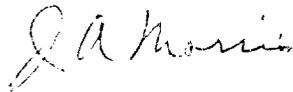

November 7, 1972

In support of this application we respectfully submit the following:

1. Exhibit 1 - Plat showing the leases and wells of this request.
2. Exhibit 2 - Schematic of the proposed State "A" Com. commingled tank battery.
3. Exhibit 3 - Letter from purchaser of crude consenting to the proposed commingling.
4. Exhibit 4 - The approval of the Commissioner of Public Lands for this application.

Should any further information be required, please advise.

Yours very truly,

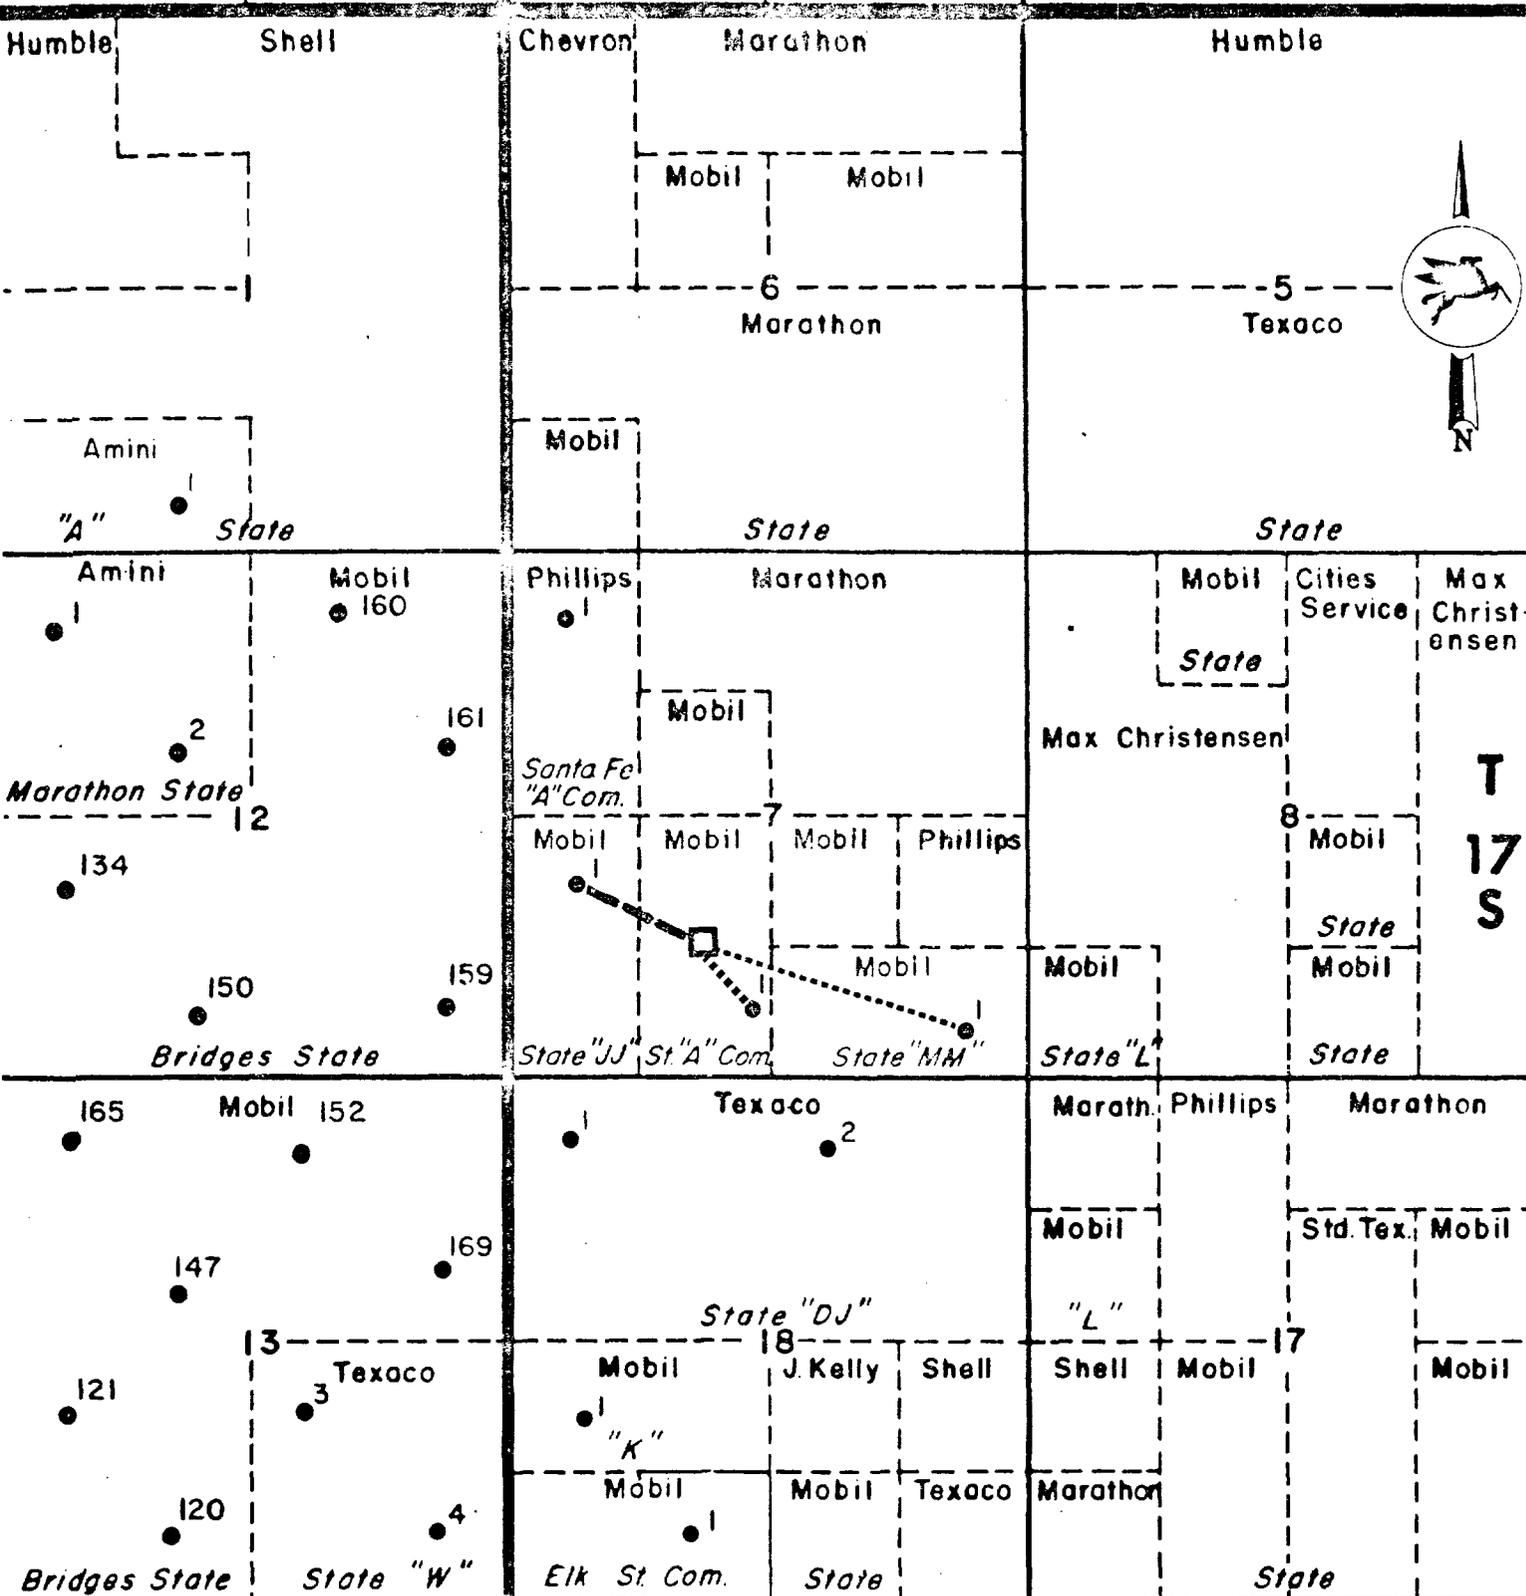

J. A. Morris
Production Engineering Supervisor
