REQUEST FOR AMENDMENT TO  
ADMINISTRATIVE COMMINGLING  
ORDER CTB 240 AND CANCELLATION  
OF ORDER CTB 246  
NORTH VACUUM ABO POOL  
LEA COUNTY, NEW MEXICO

Gentlemen:

Mobil Oil Corporation respectfully requests that Administrative Order CTB 240, as amended November 10, 1972, be further amended so as to permit the commingling of production from the North Vacuum Abo Pool from the State "TT" Com. Lease located in the N/2 SE/4 Section 7, T17S, R35E, in addition to the presently commingled Abo production from the State "A" Com. Lease in the E/2 SW/4 of said Section 7; the State "JJ" Lease in the W/2 SW/4 of Section 7; and the State "MM" Lease in the S/2 SE/4 of Section 7. The proposed commingling would be in the existing State "A" Com. tank battery located in the SE/4 SW/4 of said Section 7.

The Abo production from the State "TT" Com. Lease is presently commingled with the Abo production from the State "NN" Lease by authority granted January 14, 1974 in Administrative Order CTB 246. We now find it necessary to abandon the Abo production on the State "NN" Lease, and Abo production facilities will no longer be available at that location. If this application is approved, Order CTB 246 could be cancelled concurrent with the connection of the State "TT" Com. Lease to the State "A" Com. tank battery.

All of the leases of this application have common royalty and over-riding royalty ownership; however, the State "TT" Com. Lease does have diverse working interest ownership. We have secured a Letter of Consent to the proposed commingling from the working interest owner of the State "TT" Com. Lease and are attaching it to this application. All of the Abo production

of this application is of a marginal nature. Due to the diverse working interest ownership, we propose to produce the State "TT" Com. Lease through metering facilities and allocate the production to the lease by periodic metered results. We request that the remaining commingled production at the State "A" Com. tank battery continue to be allocated to each well by quarterly well tests, as presently provided for in Order CTB 249.

In support of this application we respectfully submit the following:

- a. Exhibit #1 - Plat showing the leases and wells of this request.
- b. Exhibit #2 - Schematic of the proposed modifications at the State "A" Com. tank battery.
- c. Exhibit #3 - Letter of Consent from Phillips Petroleum Company as working interest owner.
- d. Exhibit #4 - Letter of Consent from the purchaser of the crude.
- e. Exhibit #5 - The approval of the Commissioner of Public Lands for this application.

Should any further information be required, please advise.

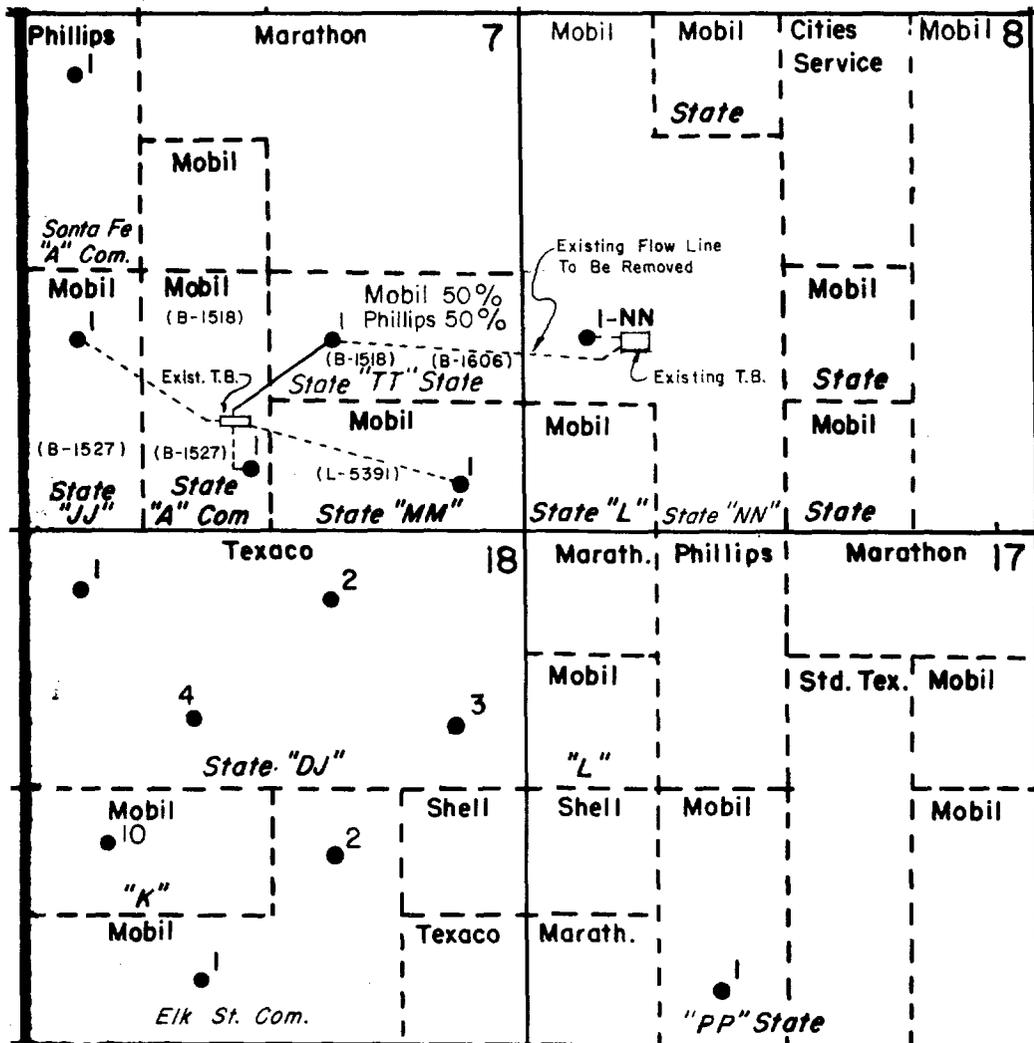

Yours very truly,

For J. A. Morris  
Regulatory Engineering Supervisor

LETTER OF CONSENT

MOBIL'S APPLICATION FOR  
EXCEPTION TO RULE 309-B  
STATE "TT" COM., STATE  
"A" COM., STATE "JJ"  
AND STATE "MM" LEASES,  
NORTH VACUUM ABO POOL,  
LEA COUNTY, NEW MEXICO

New Mexico Oil Conservation Commission  
P. O. Box 2088  
Santa Fe, New Mexico 87501

Gentlemen:

Phillips Petroleum Company, as a working interest owner in the State "TT" Com. Lease, consents to the commingling of Abo production from the State "TT" Com., State "A" Com., State "JJ" and State "MM" Leases. It is our understanding that the State "TT" Com., will be produced through metering facilities before commingling into a total metered stream.

Yours very truly,

Company: PHILLIPS PETRO.

Re: REQUEST FOR AMENDMENT TO  
ADMINISTRATIVE COMMINGLING  
ORDER CTB 240 AND CANCELLATION  
OF ORDER CTB 246  
NORTH VACUUM ABO POOL  
LEA COUNTY, NEW MEXICO

ATTENTION: Mr. J. A. Morris

Gentlemen:

In reply to your request that Administrative Order CTB 240, as amended November 10, 1972, be further amended so as to permit the commingling of production from the North Vacuum Abo Pool from the State "TT" Com. Lease located in the N/2SE/4 Section 7, T17S, R35E, in addition to the presently commingled Abo Production from the State "A" Com. Lease in the E/2SW/4 of said Section 7; the State "JJ" Lease in the W/2SW/4 of Section 7; and the State "MM" Lease in the S/2SE/4 of Section 7. The proposed commingling would be in the existing State "A" Com. tank battery located in the SE/4SW/4 of said Section 7.

The State "TT" Com. will be produced through metering facilities before commingling into a total metered stream.

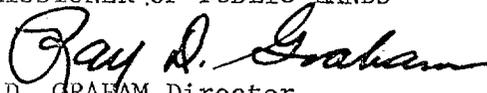

We have no objection to the commingling provided you follow New Mexico Oil Conservation Commission rules and regulations.
