NMOCD Commingling Order PLC-153-A
San Juan County, New Mexico

Dear Mr. Roe:

We have received your application of June 3, 2002 requesting our approval to consolidate two gas gathering systems currently being operated by Dugan Production. The consolidation will be achieved by redirecting the natural gas currently being sold at the State Com No 2 CDP (SW/4NW/4) to the State Com No. 1 CDP (SE/4SW/4, Sec. 16-32N-12W).

It is our understanding that only natural gas will be commingled after being measured with conventional, continuous recording allocation meters located at each well.

Since it appears that all the New Mexico Oil Conservation Division's rules and regulations have been complied with, and there will be no loss of revenue to the State of New Mexico as a result of your proposed operation, your request is hereby approved. Our approval is subject to like approval by the New Mexico Oil Conservation Division.

Your \$30.00 dollar filing has been received.

If you have any questions or if we may be of further help, please contact Pete Martinez at (505) 827-5791.

Very truly yours,

RAY POWELL, M.S., D.V.M.
