Please see Attachment I for well locations.

Also, we are requesting approval for Off Lease Sales of the gas production for the above leases. Pogo Producing Company will first meter then commingle the gas production from the above leases and sell the gas production at the Red Tank Gas Gathering CPD.

The common sales meter for the above leases is located in Unit Letter: B, Section 26, T-22S, R-32E in Lea County, New Mexico. The subject leases and gas pipeline route are depicted on Attachment II. Also find attached facility diagrams for some of the above leases. We are missing several diagrams but should be receiving them in a few days. I will forward a copy to you as soon as I receive them.

The purpose of the Commingling and the Off Lease Measurement and Sales is to reduce facility and operating costs, thereby increasing the economic life of the wells.
