BRUCE KING  
GOVERNOR

*ADMINISTRATIVE ORDER NO. WFX-626*

*APPLICATION OF MERIDIAN OIL, INC. TO EXPAND ITS WATERFLOOD PROJECT  
IN THE GRAYBURG-JACKSON POOL IN EDDY COUNTY, NEW MEXICO*

**ADMINISTRATIVE ORDER  
OF THE OIL CONSERVATION DIVISION**

Under the provisions of Division Order No. R-4502, Meridian Oil, Inc. has made application to the Division on December 30, 1991, for permission to expand its Robinson Jackson Unit Waterflood Project in the Grayburg-Jackson Pool in Eddy County, New Mexico.

**THE DIVISION DIRECTOR FINDS THAT:**

- (1) The application has been filed in due form.
- (2) Satisfactory information has been provided that all offset operators have been duly notified of the application.
- (3) No objection has been received within the waiting period as prescribed by Rule 701(B).
- (4) The proposed injection well is eligible for conversion to injection under the terms of Rule 701.
- (5) The proposed expansion of the above referenced Waterflood Project will not cause waste nor impair correlative rights.
- (6) The application should be approved.

Administrative Order WFX-626  
Meridian Oil, Inc.  
March 23, 1992  
Page 2

IT IS THEREFORE ORDERED THAT:

The applicant, Meridian Oil, Inc., be and the same is hereby authorized to inject water into the Grayburg-San Andres formation at approximately 2550 feet to approximately 3093 feet through 2 3/8 inch plastic lined tubing set in a packer at approximately 2500 feet in the following described well for purposes of secondary recovery to wit:

Robinson Jackson Unit Tract 1A No. 12  
660' FNL & 654' FEL (Unit A)  
Section 34, T-17S, R-29E, NMPM,  
Eddy County, New Mexico

(30-015-03765)

IT IS FURTHER ORDERED THAT:

The operator shall take all steps necessary to ensure that the injected water enters only the proposed injection interval and is not permitted to escape to other formations or onto the surface.

Prior to commencing injection operations, the applicant shall temporarily abandon the Robinson Jackson Unit Tract 1A No. 2 located 440 feet from the North line and 440 feet from the East line (Unit A) of said Section 34 in a manner satisfactory to the supervisor of the Artesia district office of the Division.

Prior to commencing injection operations into the well, the casing shall be pressure tested from the surface to the packer setting depth to assure the integrity of said casing.

The casing-tubing annulus shall be loaded with an inert fluid and equipped with a pressure gauge at the surface or left open to the atmosphere to facilitate detection of leakage in the casing, tubing or packer.

The injection well or system shall be equipped with a pressure limiting device which will limit the wellhead pressure on the injection well to no more than 510 psi.

The Director of the Division may authorize an increase in injection pressure upon a proper showing by the operator of said well that such higher pressure will not result in migration of the injected fluid from the Grayburg-San Andres formation. Such proper showing shall consist of a valid step-rate test run in accordance with and acceptable to this office.

Administrative Order WFX-626  
Meridian Oil, Inc.  
March 23, 1992  
Page 3

The operator shall notify the supervisor of the Artesia district office of the Division of the date and time of the installation of injection equipment and of the mechanical integrity test so that the same may be inspected and witnessed.

The operator shall immediately notify the supervisor of the Artesia district office of the Division of the failure of the tubing, casing or packer in said well and shall take such steps as may be timely and necessary to correct such failure or leakage.

The subject well shall be governed by all provisions of Division Order No. R-4502, and Rules 702-706 of the Division Rules and Regulations not inconsistent herewith.

PROVIDED FURTHER THAT, jurisdiction of this cause is hereby retained by the Division for the entry of such further order or orders as may be deemed necessary or convenient for the prevention of waste and/or protection of correlative rights; upon failure of the operator to conduct operations in a manner which will ensure the protection of fresh water or in a manner inconsistent with the requirements set forth in this order, the Division may, after notice and hearing, terminate the injection authority granted herein.

DONE at Santa Fe, New Mexico, on this 23rd day of March, 1992.
