RE: APPLICATION FOR LEASE COMMINGLING

NEW MEXICO "AQ" STATE NCT-11 AND

AMERADA STATE LEASES LAZY J PENN POOL

LEA COUNTY, NEW MEXICO

Gentlemen:

Following is Texaco Inc's. Application for Lease Commingling on its New Mexico "AQ" State NCT-ll and Amerada State Leases pursuant to Rule 309-B. Production from both leases is from the Lazy J Penn Pool, a common source of supply.

Original by Pic-Superiodul by

Production from the Amerada State Lease will be piped to a 3-phase separator where oil, water and gas will be metered immediately following separation. Oil and water will then be transferred to a gunbarrel and then storage tanks. Gas will go through a scrubber and then to a gas sales meter.

New Mexico "AQ" State NCT-11 wells will be tested using a 3-phase test separator. Wells not on test will go into a 2-phase separator with the liquids being transferred to a 750-barrel gunbarrel for separation. Liquid and gas production leaving the 2-phase separator will be metered also. Production for each lease will be determined in accordance with the applicable provisions of the NMOCD "Manual for the Installation and Operation of Commingling Facilities".

Attached are Exhibits 1, 2 and 3 indicating the schematic of the commingled battery, and Lease Plats of the New Mexico "AQ" State NCT-11 and Amerada State Leases.

A copy of this Application is being mailed to all Interest Owners and the Purchasers (address list attached) on these two leases.

Yours very truly,

W.B.hl

W. B. CADE

Commissioner of Public Lands State of New Mexico Oil and Gas Division P. O. Box 1148 Santa Fe, New Mexico 87501

Gentlemen:

Following is Texaco Inc.'s Application for Lease Commingling on it's New Mexico "AQ" State NCT-11 and Amerada State Leases pursuant to Rule 309-B. Production from both leases is from the Lazy J Penn Pool, a common source of supply.

Production from the Amerada State Lease will be piped to a 3-phase separator where oil, water and gas will be metered immediately following separation. Oil and water will then be transferred to a gunbarrel and then storage tanks. Gas will go through a scrubber and then a gas sales meter.

New Mexico "AQ" State NCT-11 wells will be tested using a 3-phase test separator. Wells not on test will go into a 2-phase separator with the liquids being transferred to a 750 barrel gunbarrel for separation. Liquid and gas production leaving the 2-phase separator will be metered also. Production for each Lease will be determined in accordance with the applicable provisions of the NMOCD "Manual for the Installation and Operation of Commingling Facilities".

Attached are Exhibits 1, 2, and 3 indicating the schematic of the commingled Battery and Lease Plats of the New Mexico "AQ" State NCT-11 and Amerada State Leases.

93, MY 95 DI ZZ MYS

If you have no objections to Texaco's commingling of production from these Leases, please indicate so at the bottom of this page, returning one copy to Texaco. If no objection to this application is received by the NMOCD in 20 days, the NMOCD may then approve the application.

Yours very truly,

w.B. hol

> Re: Application for Lease Commingling New Mexico "AQ" State NCT-11 wells and Amerada State Leases

Amerada State Leases Lea County, New Mexico

ATTENTION: Mr. W. B. Cade

Gentlemen:

Reference is made to your application dated January 16, 1986, wherein you have requested our approval for the lease commingling on your New Mexico "AQ" State NCT-11 well Nos. 1, 2, 3 and 4 located on State of New Mexico Lease No. B-9380 and the Amerada State Well No. 1, located on State of New Mexico Lease No. E-2426-1.

It is our understanding that production from both leases is from the Lazy J Penn Pool, and that all hydrocarbon production from each lease will be accurately measured.

You are hereby given approval to the above request. This approval is subject to being withdrawn at the descretion of the Commissioner of Public Lands, if in his opinion, the operation proves to be unsound or otherwise against the best interests of the State of New Mexico. Our approval is also subject to like approval by the New Mexico Oil Conservation Division.

If we may be of further help please do not hesitate to call on us. Please remit a Thirty (\$30.00) Dollar filing fee.

Very truly yours,

JIM BACA
COMMISSIONER OF PUBLIC LANDS

RE: COMMINGLING ORDER CTB-139-319

NEW MEXICO "AQ" STATE NCT-11 LEASE

AMERADA STATE LEASE

Gentlemen:

In our letter dated January 17, 1986 requesting permission for lease commingling of the referenced leases, it was erroneously stated that both leases produce from the Lazy J Penn Pool. The New Mexico "AQ" NCT-11 Lease produces from the Lazy J Penn Pool while the Amerada State Lease produces from the Saunders Permo Upper Penn Pool.

We regret any inconvenience this may have caused, and request that the Commingling Order be amended to reflect this correction.

Yours very truly,

L. J. SEEMAN

District Petroleum Engineer

LDR:JEB
