Re: Commingling Order CTB_322

Gentlemen:

Previously this year we were authorized to commingle Square Lake (GB-SA) production from our Gissler "A" Lease (LC029338) with production from our Gissler Lease (NM2746). Since that time we have drilled and are presently completing Gissler "A" #13, located NW/NE Sec. 14-17S-30E, which is the second Gissler "A" lease well, and the SW diagonal of Gissler "A" #12, the first well on this lease. We request your approval to commingle this well's production with that of Gissler #1, NM2746, and Gissler "A" #12, LC029338. All interests, including overriding royalty, royalty, and working interest are the same. All production is from the same common source of supply (Square Lake). Adequate facilities (Porta-Chek well tester) will be provided to allocate production from each well. Support documents are attached.

If further information is needed, please let us know.

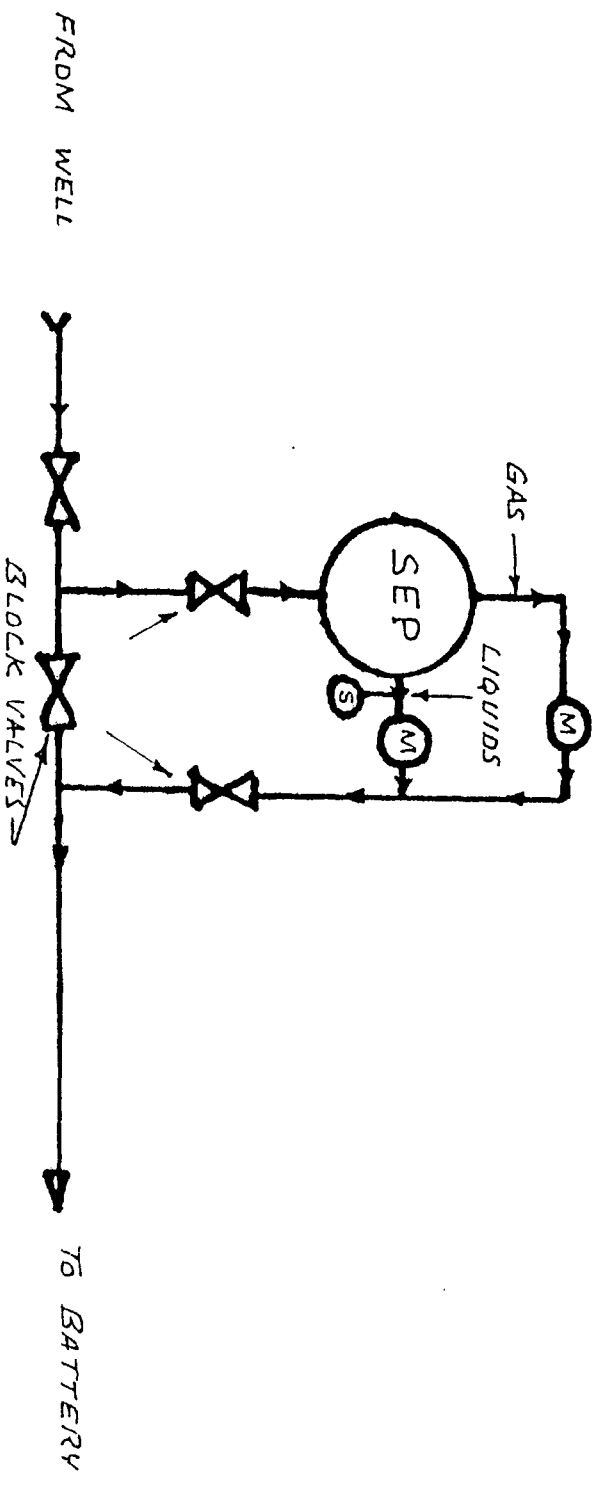

Yours truly,

John C. McPhaul
PRODUCTION SUPERINTENDENT
