Re: Amended Commingling
Order CTB-322

Dear Mr. LeMay:

We are currently completing our Gissler "A" #14 (LC 029338A) in the Grayburg Jackson field. This well is the third lease well and is located in the NE/4 of the NE/4 of Section 14, T17S, R30E, NMPM, Eddy Co., New Mexico. We are asking for an exception to Rule 309-A to permit us to commingle the production from our Gissler "A" #14 with the production from our Gissler lease (NM 2746) through an amendment to Amended Commingling Order CTB-322, adding this well.

All production is from the same common source of supply (Grayburg Jackson) and all ownership of the two leases, including working interest ownership, royalty interest ownership and overriding royalty interest ownership is identical. Adequate facilities (portable well tester) will be provided to determine allocated production from each lease. All parties have been notified by certified mail of our intent to commingle production from these two leases.

Supporting information is attached. If further information is needed, please let us know.

Yours truly,

John C. McPhaul
Production Superintendent
