Dear Mr. Kellahin:

Administrative Order WFX-480 was corrected earlier this year and you should have received a corrected copy. If you did not, one is enclosed.

I cannot approve your request for non-plastic lined tubing, because the fluids injected will be corrosive at a PH greater than 8. If you have further questions or would like to bring your request to a hearing, please contact my office.

Yours very truly,

JOE D. RAMEY  
Director
