GARY E. JOHNSON
Governor
Jennifer A. Salisbury
Cabinet Secretary

Lori Wrotenbery
Director
Oil Conservation Division

ADMINISTRATIVE ORDER SWD-793

APPLICATION OF PERMIAN RESOURCES, INCORPORATED FOR PRODUCED WATER DISPOSAL, LEA COUNTY, NEW MEXICO.

ADMINISTRATIVE ORDER OF THE OIL CONSERVATION DIVISION

Under the provisions of Rule 701(B), Permian Resources Incorporated made application to the New Mexico Oil Conservation Division on July 27, 2000, for permission to complete for produced water disposal its Harrison Well No. 2 (**API No. 30-025-11690**) located 2310 feet from the South line and 990 feet from the East line (Unit I) of Section 22, Township 25 South, Range 37 East, NMPM, Lea County, New Mexico.

THE DIVISION DIRECTOR FINDS THAT:

- (1) The application has been duly filed under the provisions of Rule 701(B) of the Division Rules and Regulations;
- (2) Satisfactory information has been provided that all offset operators and surface owners have been duly notified;
- (3) The applicant has presented satisfactory evidence that all requirements prescribed in Rule 701 will be met.
- (4) An objection by the surface owner was received within the waiting period prescribed by said rule.
- (5) This application was set for an examiner hearing.
- (6) The concerns of the surface owner have since been resolved and they have now withdrawn their objection.

IT IS THEREFORE ORDERED THAT:

The applicant herein, is hereby authorized to complete its Harrison Well No. 2 (**API No. 30-025-11690**) located 2310 feet from the South line and 990 feet from the East line (Unit I) of Section 22, Township 25 South, Range 37 East, NMPM, Lea County, New Mexico, in a such manner as to permit the injection of produced water for disposal purposes into the Queen formation from approximately 3,218 feet to 3,366 feet through 2 3/8 inch plastic-lined tubing set in a packer located at approximately 3,200 feet.

IT IS FURTHER ORDERED THAT:

The operator shall take all steps necessary to ensure that the injected water enters only the proposed injection interval and is not permitted to escape to other formations or onto the surface.

Prior to commencing injection operations into the well, the casing shall be pressure tested from the surface to the packer setting depth to assure the integrity of said casing.

The casing-tubing annulus shall be loaded with an inert fluid and equipped with a pressure gauge at the surface or left open to the atmosphere to facilitate detection of leakage in the casing, tubing, or packer.

The injection well or system shall be equipped with a pressure limiting device which will limit the wellhead pressure on the injection well to no more than 644 psi.

The Director of the Division may authorize an increase in injection pressure upon a proper showing by the operator of said well that such higher pressure will not result in migration of the injected fluid from the Queen formation. Such proper showing shall consist of a valid step-rate test run in accordance with and acceptable to this office.

The operator shall notify the supervisor of the Hobbs district office of the Division of the date and time of the installation of disposal equipment and of any mechanical integrity test so that the same may be inspected and witnessed.

The operator shall immediately notify the supervisor of the Hobbs district office of the Division of the failure of the tubing, casing, or packer in said well and shall take such steps as may be timely and necessary to correct such failure or leakage.

PROVIDED FURTHER THAT, jurisdiction is retained by the Division for the entry of such further orders as may be necessary for the prevention of waste and/or protection of correlative rights or upon failure of the operator to conduct operations (1) to protect fresh water or (2) consistent with the requirements in this order, whereupon the Division may, after notice and hearing, terminate the injection authority granted herein.

Re: NMOCD Case No. 12490; Application of Permian Resources, Inc. for Produced Water Disposal, Lea County, New Mexico

Dear Ms. Wrotenbery:

The above referenced application for administrative approval for disposal of produced water was set for examiner hearing due to the receipt of an objection by the surface owner. The surface owner's concerns have since been resolved and the objection waived. The application may once again be processed administratively and, consequently, we request that the examiner hearing be dismissed.

Very truly yours,

MILLER, STRATVERT & TORGERSON, P.A.

Re: NMOCD Case No. 12490; Application of Permian Resources, Inc. for Produced Water Disposal, 2310' FSL, 990' FEL. Sec. 22, T-25-S, R-37-E. NMPM, Lea County, NM

Dear Mr. Ashley:

This application for administrative approval for produced water disposal was referred for examiner hearing due to an objection received from the surface owners, George and Joyce Willis. The Willis's concerns have since been resolved and they have now withdrawn their objection to the application. A copy of the Willis's November 20, 2000 letter advising of the withdrawal of their protest is enclosed.

On behalf of the Applicant, it is requested that administrative approval of the application for produced water disposal be processed at the Division's earliest convenience.

Should you require additional information, please do not hesitate to contact me.

Very truly yours,

MILLER, STRATVERT & TORGERSON, P.A.

RE: NM OCD #12490
S 22 T-25-S, R-E NMPM
LEA COUNTY, NM

In the matter concerning the protest to PERMIAN RESOURCES application for disposal of produced water from their adjoining operations, we do hereby withdraw that protest. The items that were addressed in the protest have been addressed by PERMIAN RESOURCES and an agreement has been drawn. The concerns have been adequately addressed. We do however, reserve the right to protest if need arises and these concerns are not addressed in the future.

We do appreciate the courtesy and attitude of PERMIAN RESOURCES in addressing this matter (especially the efforts of Mr. Will Porter). We also thank the OCD for their professionalism in the approach to addressing the application and protest.

Respectfully submitted,

George Willis and Joyce M. Willis
Owners Willis Ranch
