Attention: Mr. A. W. Lang

Administrative Order OLS-34

Gentlemen:

Reference is made to your letter of December 30, 1964, wherein you request off-lease storage for the Lusk Strawn production from your Sweeney Federal Lease comprising the SW/4 of Section 13, Township 19 South, Range 31 East, Eddy County, New Mexico. It is our understanding that the tank battery for said lease would be located on your Jones Federal "C" Lease in the SW/4 of Section 24, same Township.

Inasmuch as there will be no commingling of production from the two leases and all handling, separating, treating, and storage facilities for each lease will be separate, the above-described off-lease storage is hereby approved.

Very truly yours,

A. L. Porter, Jr.
Secretary-Director

Attention: Mr. A. ...

Administrative Order 44-33

Dear Sir:

Reference is made to your letter of December 10, 1964, wherein you request off-lease storage for the tank drawn production from your Sweeney Federal Lease comprising the SW1/4 of Section 13, Township 19 North, Range 31 East, Body County, New Mexico. It is our understanding that the tank battery for said lease would be located on your lease Federal "C" lease in the SW1/4 of Section 14, same Township.

Inasmuch as there will be no commingling of production from the two leases and no additional, separating, treating, and storage facilities for each lease will be required, the above-described off-lease storage is hereby approved.

Very truly yours,

W. L. Foster, Jr.
Secretary-Director

December 30, 1964

New Mexico Oil Conservation Commission
P. O. Box 2088
Santa Fe, New Mexico

Attention: Mr. Dan Nutter

Gentlemen:

Tenneco respectfully requests your approval of off-lease storage for our Sweeney Federal Lease, SW/4 of Section 13, in a tank battery located on our Jones Federal "C" Lease, SW/4 of Section 24, both in T-19-S, R-31-E, Eddy County, New Mexico.

Production from the Sweeney Federal Lease will be trucked out of the field. The location of the tank battery on a better road, closer to other tank batteries, will hold down the cost of road maintenance. By locating this tank battery closer to one with a gas pipeline connection, it will facilitate getting a gas connection for this well, thereby cutting down on the amount of gas to be vented and preventing economic waste.

It is planned to erect a central LACT Facility for the various Tenneco operated Jones Federal and surrounding leases in the near future at or near the site of the Sweeney Federal tank battery. By constructing this tank battery at its proposed location it can be utilized in the LACT thus eliminating separate construction costs for a battery that would shortly be abandoned.

All requirements of the New Mexico Oil Conservation Commission's Rule 309-C will be adhered to. There will be no commingling of production from the Sweeney Federal Lease and the Jones Federal "C" Lease. All production from the two leases is from the Lusk Strawn Pool. Handling, separating, treating and storage facilities will be separate.

Attached are plats of the leases involved and a table of division of interest of revenue. Also attached are copies of letters and proof of mailing to each party owning an interest in the production and to the Regional Supervisor of the USGS, asking for their consent to the off-lease storage.

We respectfully request that you approve this application for off-lease storage.

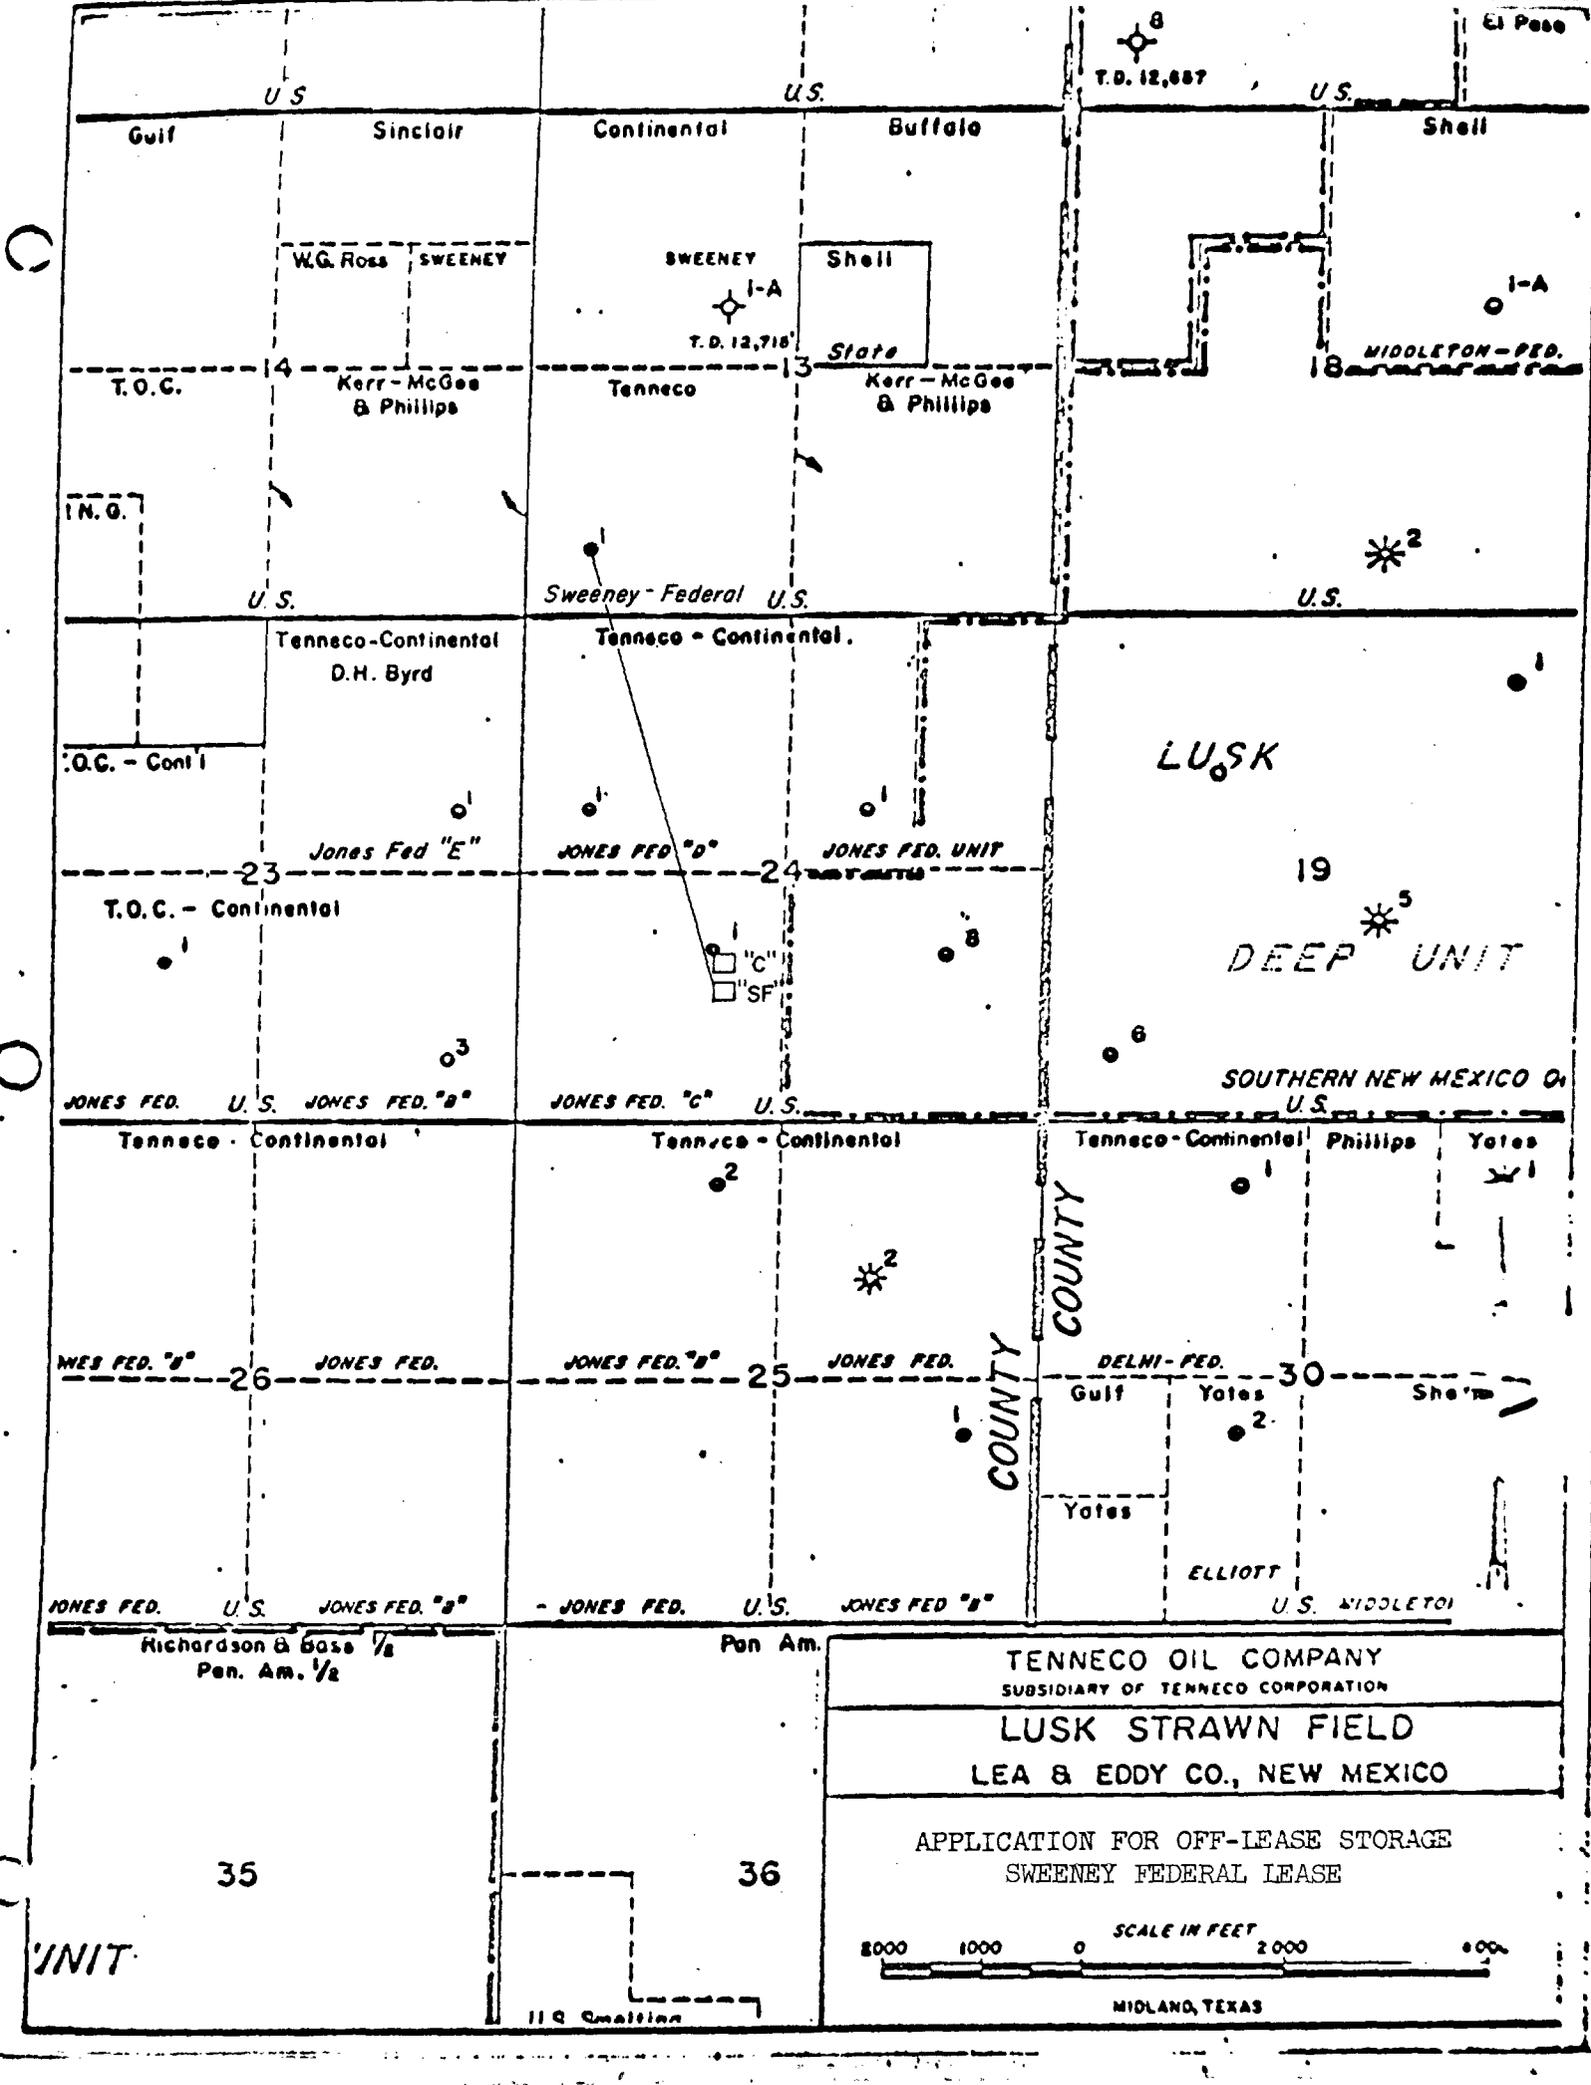

Yours very truly,

TENNECO OIL COMPANY
