Attention: Mr. D. C. Capps

Administrative Order OLS-41

Gentlemen:

Reference is made to your application dated July 20, 1965, for authority to transport oil produced from your J. T. Caudle Well No. 6 located in Unit K, Section 3, Township 12 South, Range 33 East, Bagley Pennsylvanian Pool, Lea County, New Mexico, to a tank battery located in your Mathers Lease in Unit I of said Section 3.

Amerada Petroleum Corporation is hereby authorized the above-described off-lease storage, providing that there shall be no intercommunication of the handling, separating, treating, or storage facilities designated to each lease.

Very truly yours,

A. L. Porter, Jr.  
Secretary-Director

Dear Sir:

Administrative Order 65-47

Reference

Reference is made to your application dated July 20, 1955, for authority to transport oil produced from your U. T. Candler Well No. 6 located in Unit 2, Section 3, Township 22 South, Range 33 East, Twp. 22S, R. 33E, New Mexico, to a tank battery located in your Well No. 1, Unit 1, Section 3.

Your application is hereby authorized and approved provided that there shall be no intercompany facilities for the handling, separating, treating, or storage facilities connected to a lease.

Very truly yours,

J. L. Fortney, Jr.  
Secretary-Director

Re: Request for off lease storage permit on the W. E. Mathers lease  
located in Unit I, Sec. 3, T-12S, R-33E, Lea County, New Mexico.

Dear Sir:

Amerada Petroleum Corporation requests permission to store on the W. E. Mathers lease crude oil produced from the J. T. Caudle No. 6, located in Unit K, Sec. 3, T-12S, R-33E, Lea County, New Mexico.

The tanks that are planned to be used were previously used for the W. E. Mathers, Devonian, which has declined in production until the tanks are no longer needed. The other tanks on the W. E. Mathers are used for W. E. Mathers Lower Penn. oil production, Upper Penn. condensate production and Devonian oil production. There is no comingling of the production on the Mathers lease.

Service Pipe Line Company is the purchaser of the oil and Warren Petroleum Corporation is purchaser of the casing head gas from the Caudle No. 6. Both companies have connections at the W. E. Mathers battery. There is also a salt water disposal connection at the battery. Since the tanks and connections are already in place and connected, off lease storage would result in considerable savings to Amerada, Service Pipe Line Co. and Warren Petroleum Corp.

July 20, 1965

Verbal approval for off lease storage has been received from the United States Geological Survey and the New Mexico Oil Conservation Commission offices in Hobbs, New Mexico.

Attached are:

1. Plat showing leases.
2. Schematic of battery.

Yours very truly,

  
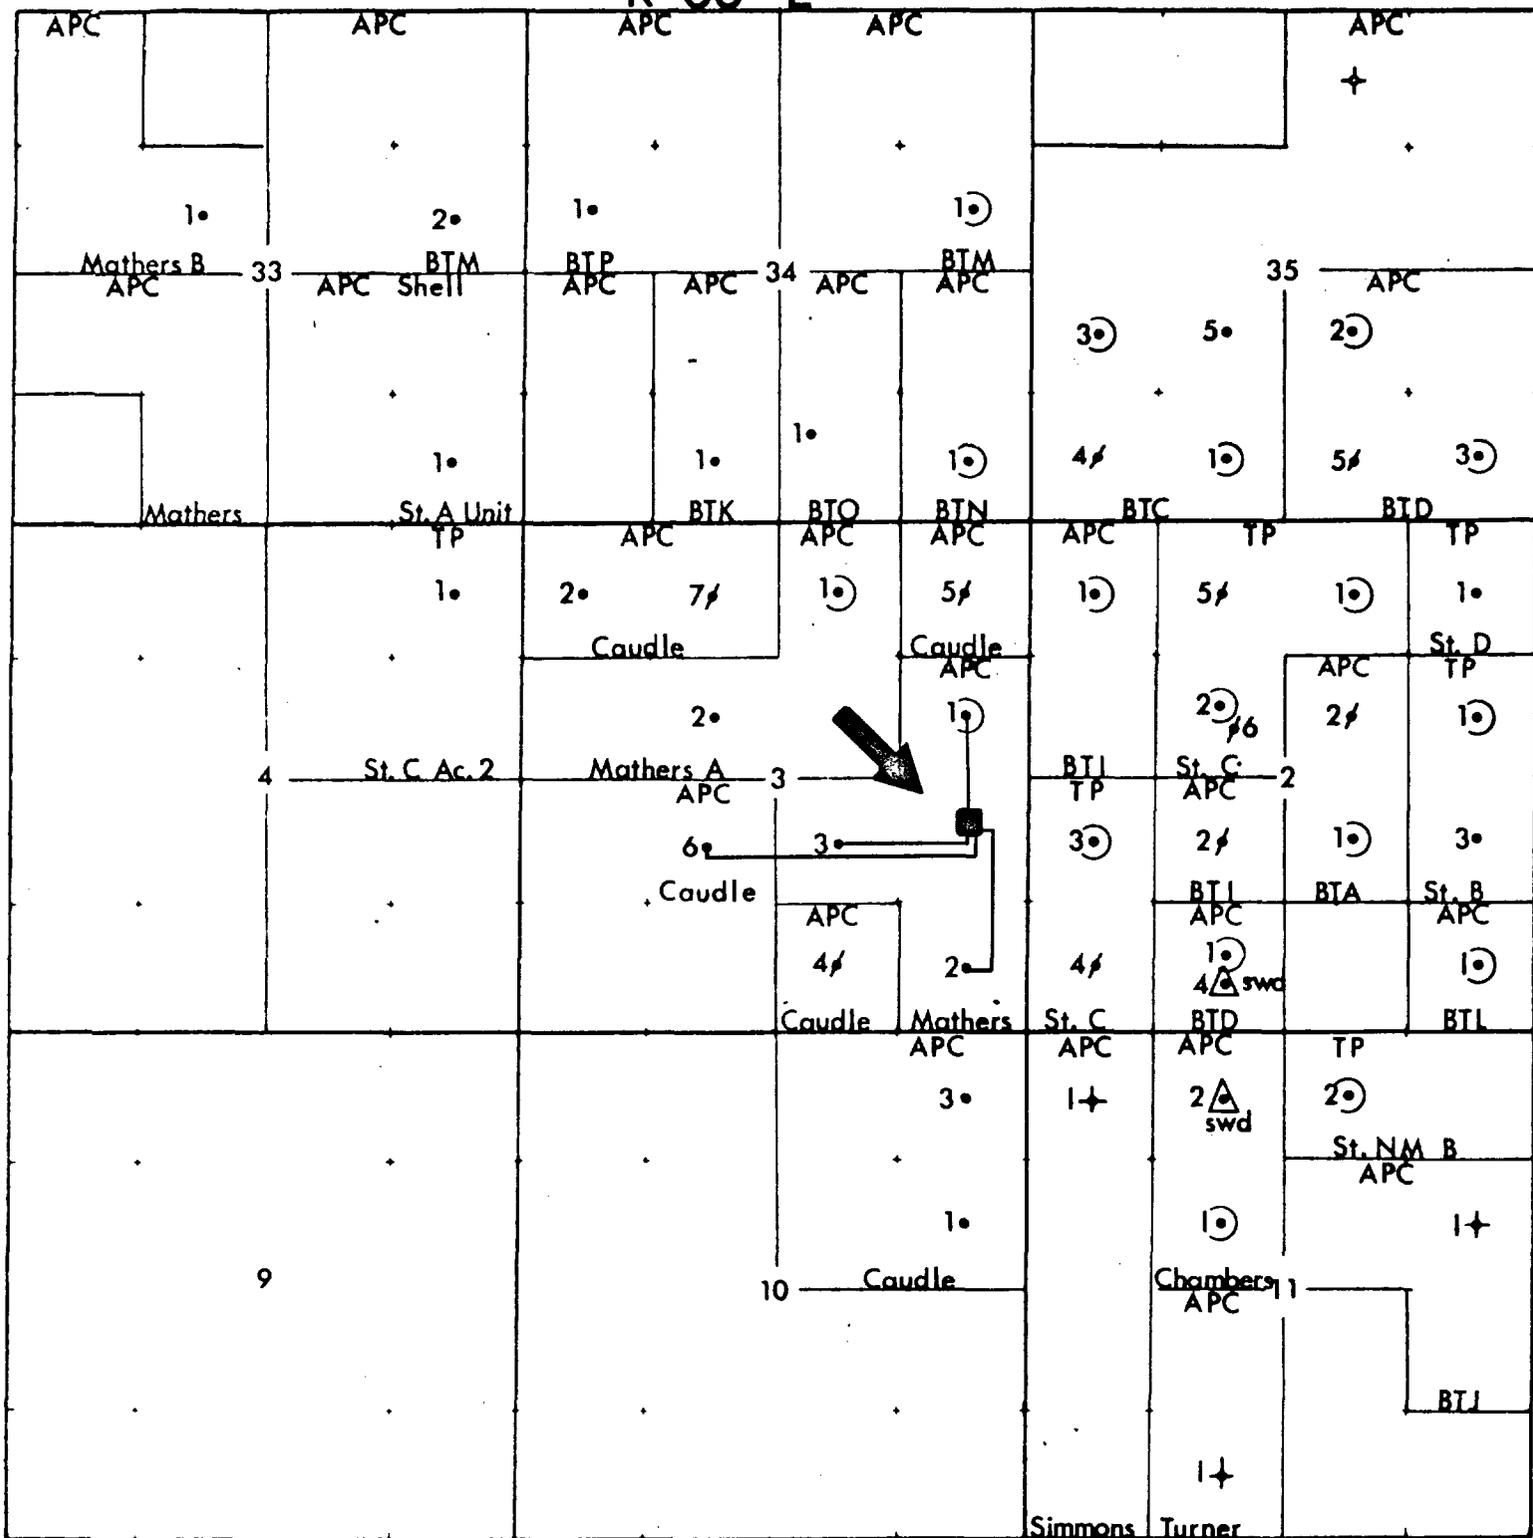

D. C. Capps  
District Superintendent
