Re: Revision of Application to
Commingling Production, TEXACO
Inc. C. P. Falby "b" Lease,
Eumont (Oil), Penrose-Skelly
and Drinkard Pools, Lea
County, New Mexico

Attention: Mr. A. L. Porter, Jr.

Gentlemen:

Please refer to New Mexico Oil Conservation Commission Administrative Order PC-14-A dated December 30, 1960 authorizing commingling operations in the subject pools. All wells in each pool on the subject lease are now physically incapable of producing top unit allowable for their respective pools. TEXACO Inc. respectfully request permission to cease separately metering production from each zone and to determine production from each well and from each pool by periodic well tests. This request is in agreement with Section II-1 of the current New Mexico Oil Conservation Commission "Manual for the Installation and Operation of Commingling Facilities".

Royalty and working interest in the subject lease is common and royalty interest is held by the U. S. Federal Government. Copies of this application are being sent this date to the U. S. Geological Survey, P. C. Box 1838, Hobbs, New Mexico. Upon receipt of approval of this application from U.S.G.S., a copy will be forwarded to New Mexico Oil Conservation Commission.

Attached is a tabulation of production from each zone and each well during March and April, 1963. Also attached are schematic diagrams showing the current and proposed commingling facilities.

Yours very truly,

H. D. Raymond

Attention: Mr. H. D. Raymond

Gentlemen:

Your letter of June 28, 1963, requests revision of your application to commingle production, approved by us on October 24, 1962, on Federal lease Las Cruces 033706(b), Lea County, New Mexico.

The revision would permit you to cease separate metering of production from each zone and allow the determination of production from each pool and each well on the subject lease by periodic well tests.

Revision of your application, as described by the attached proposed diagram and procedure noted in your letter, is hereby approved.

Very truly yours,

JOHN A. ANDERSON
Regional Oil and Gas Supervisor
