Amended Administrative Order PC-15

Gentlemen:

Reference is made to your recent request that Administrative Order PC-15 be amended to delete the metering requirement inasmuch as all production commingled under authority of said order is now of marginal nature.

Administrative Order PC-15 is hereby amended to delete the metering requirement.

With respect to your request of February 17th to delete certain meters in the commingling installation authorized by Administrative Order PLC-3, would there still be meters to determine the production from each of the three separate leases, that is, the Graham State NCT-I lease, the Graham State NCT-J lease and the W. A. Ramsay NCT-B lease?

Very truly yours,

A. L. PORTER, Jr.
Secretary-Director
