Re: Revision of Commission Order No.
PC-28, Commingling of Production,
TEXACO Inc., J. R. Phillips Lease,
Lea County, New Mexico

Attention: Mr. A. L. Porter, Jr.

Gentlemen:

In accordance with Section II - "Commingling Between Pools and Zones", Item I - "Marginal Zones", of the current New Mexico Oil Conservation Commission's "Manual for the Installation and Operation of Commingling Facilities", TEXACO Inc. respectfully requests permission to commingle the liquid hydrocarbon production from the Monument, Monument Blinbry and Monument Paddock Pools on the J. R. Phillips Lease consisting of the NW/4 of Section 6, Township 20 South, Range 37 East, Lea County, New Mexico without separately measuring the production from each pool prior to commingling.

Commission Order No. PC-28 granted authority to commingle the production from the Monument, Monument Blinbry and Monument Paddock pools after separately measuring the production. Since the initiation of this commingling procedure on the subject lease the producing capacity has declined such that no well is capable of producing top allowable as indicated on the attached 60-day production tabulation.

In view of the above mentioned facts it is respectfully requested that Commission Order No. PC-28 be amended to permit commingling the aforesaid production without separately measuring production from each zone prior to commingling.

Yours very truly,
