Gentlemen:

Surface Commingling - Britt B Lease, LC-031621 b

We have recently reviewed our files relative to the above and have found that surface commingling was approved by your attached letter of December 26, 1961, for the Monument, Monument Tubbs, Weir, Weir Tubbs, and Weir Blinebry pools. However, we cannot find evidence that you granted approval to commingle Eunice-Monument (G-SA), Eumont Yates Seven Rivers Queen, Weir Drinkard and Monument Paddock production which have since been added to this battery. Therefore, we are requesting your approval for the commingling of these additional pools. Data relative to this battery is as follows:

- 1) An updated battery drawing and lease plat is attached.
- 2) Current 9-329's are included indicating production levels.
- 3) Ownership of each zone and value of production from each zone is the same.
- 4) Production will be allocated to each zone on the basis of well tests.
- 5) By copy of this letter we are informing other interest owners of this action.

If you have any questions concerning this matter, please advise. Thank you for your assistance.

Yours very truly,

Mark K. Mosley

Re: APPLICATION FOR USGS APPROVAL
FOR COMMINGLING AND ACT ON OUR
BRITT B-15 LEASE, LEA COUNTY,
NEW MEXICO

Attached for your approval are two copies of an application by Continental Oil Company for permission to install ACT and to commingle production from the Monument, Monument-Tubb, Weir, Weir-Tubb and Weir-Blinberry Pools on its Britt B-15 Lease, Las Cruces 031621(b) which consists of the W/2 and W/2 of the E/2 of Section 15, T20S, R37E, N44PM, Lea County, New Mexico. Our records indicate the royalty from this lease to be Federal.

We are sending a copy of this letter and one copy of the application to the Hobbs District Office of the USGS. Your early approval of this application will be appreciated.

Yours very truly, .

Attention: Mr. W. A. Mead ^{STANDLEY}

Gentlemen:

Your letter of December 4 requests our approval of an automatic custody transfer unit and to commingle the production on your Britt-B-15 lease, Las Cruces 031621(b).

The automatic custody transfer unit and the method of metering and commingling the oil production as described by your schematic diagram are hereby approved. All master meter proving tests should be scheduled so that a Survey engineer of our Hobbs office may be notified in sufficient time to witness the calibration.

You are requested to notify our Hobbs office when the installation is completed so that a field inspection of the system can be made.

Very truly yours,

JOHN A. ANDERSON
Regional Oil and Gas Supervisor
