Dear Sir:

The subject order approved commingling the Blinebry Oil, Drinkard, Blinebry Gas and Tubb Gas Pools from our T. R. Andrews Lease, Section 32-22S-38E, Lea County, New Mexico, after separately metering production from each pool.

Now, there are no wells producing top allowable from these pools. Permission is requested to discontinue the metering system and determine the production by periodic well test in accordance with the provisions of the Commission "Manual for the Installation and Operation of Commingling Facilities".

Yours very truly,

C. D. BORLAND  
Area Production Manager
