AMENDMENT  
Administrative Order PC-52 ✓

Gentlemen:

Reference is made to your letter dated October 11, 1966, whereby you request an amendment to Administrative Order PC-52 which authorizes the commingling of Devonian and Wolfcamp production on your Priest Lease, Denton Field, Lea County, New Mexico, after separately metering the Wolfcamp production and determining the Devonian production by means of the subtraction method.

It is our understanding that all wells on the lease are now of marginal nature and that you therefore wish to commingle, allocating the production to each pool on the basis of periodic well tests.

Administrative Order PC-52 is hereby amended to delete the metering requirement.

Very truly yours,

A. L. PORTER, Jr.
