*Amend
PC-54*

Gentlemen:

Administrative Order PC-54 granted Continental Oil Company authority to commingle production on our Wantz Lease, Section 21, T-21S, R-37E, Lea County, New Mexico from the Blinebry, Drinkard and Hare Oil Pools and Blinebry and Tubb Distillate Pools, provided production from the Blinebry and Tubb Distillate Pools and any pool having top allowable oil production be metered. At the time Administrative Order PC-54 was granted some of the wells in the Blinebry pool on the Wantz Lease were top allowable. The following tabulation of production from the Wantz Lease shows none of the wells are top allowable and the tests listed indicate they are not capable of producing top allowable. Therefore, Continental Oil Company respectfully requests that Administrative Order PC-54 be amended to eliminate the necessity of metering production from the Blinebry pool on the Wantz Lease. Production will be allocated to each pool and well based on current Gas-Oil Ration Surveys. Blinebry and Tubb Distillate will continue to be metered.

Yours very truly,

*El oil
Dr oil
Hare oil
Bl dist - metered
Tb dist - metered*
