Gentlemen:

Reference is made to your application dated January 12, 1962, for administrative approval of an exception to Rule 303 (a) of the Commission Rules and Regulations to permit the commingling of the production from the Grayburg-Jackson and undesignated Fren Pools on your J. L. Keel "A" Lease located in Section 7, Township 17 South, Range 31 East, HMDM, Eddy County, New Mexico, without separately metering the production from each pool, however the wells located on the N/2 of the lease to be produced into one tank battery and the wells located on the S/2 of the lease to be produced into another tank battery.

By the authority vested in me under the provisions of Rule 303 (b) of the Commission Rules and Regulations, you are hereby authorized to commingle the production from the Grayburg-Jackson and undesignated Fren Pools on the above-described J. L. Keel "A" Lease without separately metering the production from each pool, however the wells located on the N/2 of the lease to be produced into one tank battery and the wells located on the S/2 of the lease to be produced into another tank battery; provided however, that the installation shall be operated in accordance with the provisions of the Commission "Manual for the Installation and Operation of Commingling Facilities"; and provided further however, that you shall immediately notify the Commission at such time as any well in either pool is capable of top allowable production.

Very truly yours,
