Amendment
Administrative Order PC-63

Gentlemen:

Reference is made to your letter dated August 27, 1964, wherein you request an amendment to Administrative Order PC-63 which authorizes the commingling of Drinkard and Blinebry oil and Tubb and Blinebry gas liquids on your A. H. Blinebry (NCT-4) Lease located in Section 31, Township 22 South, Range 38 East, Lea County, New Mexico, without separately metering the production from each pool. It is our understanding that Well No. 4 has recently been completed on this lease capable of producing top allowable from the Blinebry Oil Pool, and you propose to meter the production from said Well No. 4 only and use the subtraction method for determining the remaining production from the other wells on this lease.

Administrative Order PC-63 is hereby amended as described above, provided that the Blinebry production from said Well No. 4 shall be measured with a meter equipped with a non-reset counter of an approved type and an automatic fluid sampler. Administrative Order PC-63 shall remain in effect in all other respects.

Very truly yours,

A. L. Porter, Jr.
Secretary-Director

Reference is made to your letter dated August 1, 1961, wherein you requested an amendment to permit an increase in the number of fish to be stocked in the Binyere (NW-4) Lake, located in Section 11, Township 11N, Range 28 East, Lee County, Iowa, and to request the reduction of the number of fish to be stocked in each pool. It is requested that you complete on this lake the addition of ponds to be stocked with fish from the Binyere Gill Net, and you provide an estimate of the cost of the fish, and the construction and the maintenance of the ponds for retaining the fish. The other fish on this lake.
